# Welcome to our 2023 Catalogue!

## Welcome to our 2023 Catalogue!

Upholding the traditional practice, [Publishers Marketing Associates \(PMA\)](#) is adding this year as well a good number of exclusive courses in the new catalogue. Many of the learning resources come from [PMA](#)'s business of working in collaboration with international publishers who have significant expertise and competencies in developing learning materials and resources of all major disciplines.

The courses making their debut in the catalogue are, to name a few in the O Levels, and simultaneously in the A Levels, Global Perspectives and, Physics, Chemistry and Biology of Hodder, in the O level.

[PMA](#)'s stock of the new editions of the popular books featured herein are all very meticulously prepared by focusing on the updated subjects' requirements. The disciplines that cater for the new academic session are English, Pure Maths, Mechanics, Sociology, History, Information Technology and Thinking Skills. These new editions are for scaffolding the O and A Level curriculum.

Finally, please visit [PMA](#)'s website to keep abreast with all the forthcoming additions to our wealth of books.

Syed Nasir Husain  
Managing Director

### NEW Cambridge O Level English Language

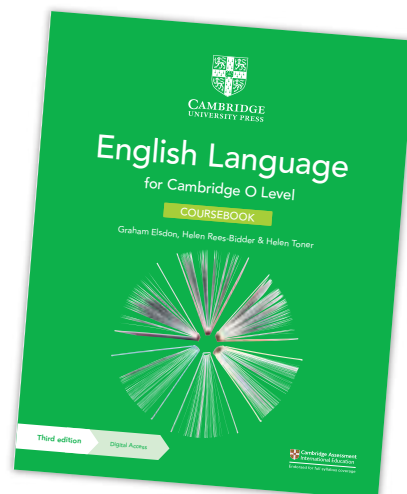

**Author:** Graham Elsdon, Helen Rees-Bidder, Helen Toner and Patrick Creamer

Suitable to support Cambridge O Level English Language (1123) for examination from 2024.

#### Coursebook with digital access

- A wide variety of student activities with step-by-step guidance, grow more challenging as the chapters progress
- 'Self-assessment' tables at the end of each chapter ask students to rate their confidence and prove their understanding, to see where they might need extra support
- 'Language support' boxes provide extra grammar support and activities for students so they can apply their learning
- 'Exam-style questions' and 'Sample answers' help students prepare for assessment and understand how to construct an answer

NEW Coursebook with digital access (2 years) ISBN 978 100 915 010 1  
NEW Digital teacher's resource access card ISBN 978 100 909 682 9

### Cambridge University Press Songs of Ourselves

*Songs of Ourselves: Volumes 1 and 2* present a wide range of poetry covering four centuries, every continent and subject matter from the cradle to the grave. Parts of *Songs of Ourselves* are set for study in Cambridge IGCSE, Cambridge O Level, and Cambridge International AS & A Level Literature.

- Both volumes contain work by more than 100 poets such as Shakespeare, Les Murray and Seamus Heaney
- Poems are arranged in thematic or chronological sections.

Vol. 1: ISBN 978 110 846 226 6  
Vol. 2: ISBN 978 110 846 228 0

### Cambridge University Press Stories of Ourselves

*Stories of Ourselves Volume 1 and Volume 2* contain short stories written in English by authors from many different countries and cultures. *Stories of Ourselves* is a set text for Cambridge IGCSE, O Level and International AS & A Level Literature.

- Classic writers appear alongside new voices from around the world.
- In Volume 2, brief biographical information about the writer of each story provides useful context.
- Notes on each story explain unfamiliar words and phrases

Vol. 1: ISBN 978 110 846 229 7  
Vol. 2: ISBN 978 110 843 619 9

Cambridge University Press  
Cambridge IGCSE  
**First Language English**  
Fifth edition

Author: Marian Cox

Cambridge IGCSE™ First Language English syllabuses (0500/0524) for examination from 2020.

This is a fully revised coursebook, teacher's resource and practice book.

**Key Features:**

**Coursebook**

- Develops confidence by revisiting skills and building on prior knowledge.
- Includes a wide variety of international text types.
- An active learning approach integrates speaking and listening throughout.
- Improved navigation between the course components helps to understand learning objectives.

**Teacher's Resource**

- This print and digital bundle contains 24 pre-planned lessons, worksheets and answer keys to save teaching time.

**Language and Skills Practice Book**

- Contains exam-style tasks for additional support around the mechanics of language and grammar.

Cambridge IGCSE and O Level

**Literature in English**

Second edition

Author: Russell Carey

Cambridge IGCSE™ and O Level Literature in English syllabuses (0475/2010) for first examination from 2020.

This fully revised second edition builds skills in responding to poetry, prose and drama in preparation for Cambridge IGCSE and O Level Literature in English.

**Key Features:**

**Coursebook**

- Activities and extracts from internationally acclaimed writers: Anita Desai and Arthur Miller
- This edition includes genres of poetry, prose and drama, and end-of-unit self-evaluation

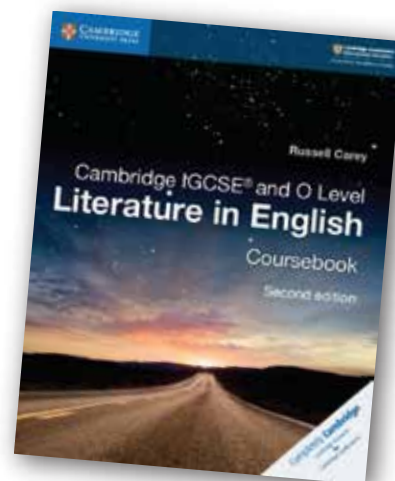

**Teacher's resource**

- Features lesson planning and delivery support, including worksheets and PowerPoints

**Workbook**

- Provides further confidence-building practice in responding to poetry, prose and drama.

NEW Cambridge IGCSE™

## English as a Second Language

Sixth edition

**Author:** Peter Lucantoni and Lydia Kellas

Suitable for Cambridge IGCSE™ and IGCSE (9–1) English as a Second Language syllabuses (0510/0511/0991/0993) for examination from 2024.

### Key Features:

This new series supports learners through the updated Cambridge IGCSE English as a Second Language syllabuses. The key changes made to the resources include:

- Updated reading and writing task types to reflect changes in the syllabus and provide lots of opportunities to practise multiple-choice questions in the coursebook, workbook and unit tests.
- Lots of speaking and listening exam-style questions in our resources to help students practice for assessment, and they reflect the syllabus updates. Also offered are speaking videos to build confidence and skills.
- Tiering has been removed from the qualification. Provided are more opportunities for differentiation, helping to manage mixed-ability classes and allowing every student to demonstrate language competence, e.g. step-by-step writing support in the coursebook, tiered grammar practice in the workbook and differentiation ideas in the teacher's resources.

### Coursebook with digital access

- Projects help students to develop 21st century skills like critical thinking, collaboration and communication
- Exam-style questions help prepare students for assessment and build key skills
- Step-by-step writing sections, with sample answers, enable students to write more effectively
- Audio tracks, videos and downloadable materials, such as text extracts, available via **Cambridge GO**

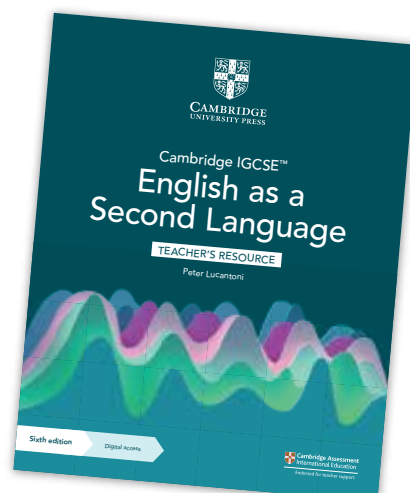

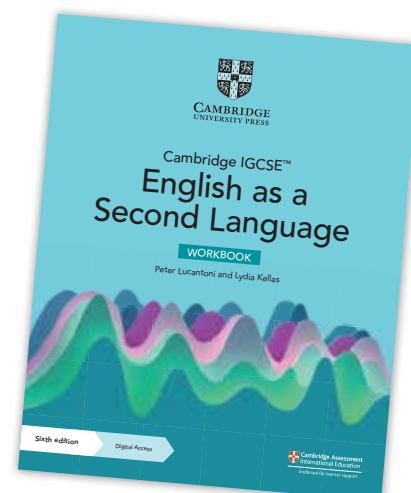

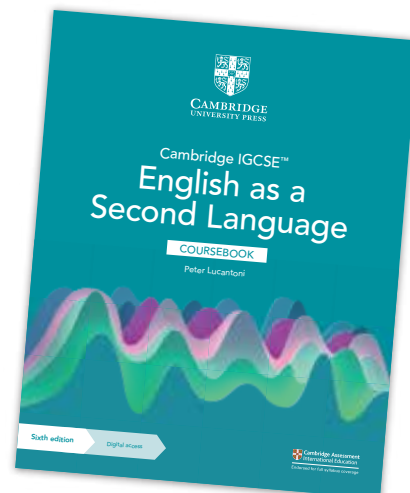

### Workbook with digital access

- New 'Language focus' feature with three tiers of differentiated activities ensures grammar support for all abilities
- Each unit split into four key practice areas: Vocabulary, Language, Skills (e.g. reading, listening) and Exam practice

### Teacher's resource with digital access

- Extra end-of-unit tests and an exam-style practice test to help learners prepare for assessment
- Sample answers and commentary to support key problem areas for writing
- Differentiation guidance with 'Support' and 'Challenge' suggestions to suit a variety of learners

NEW Coursebook with digital access (2 years)	ISBN	978 100 903 194 3

Cambridge IGCSE™

## Core English as a Second Language

Authors: Katia Carter and Tim Carter

Cambridge IGCSE Core English as a Second Language 0510/0511 series is the only set of resources aimed specifically at the Core level.

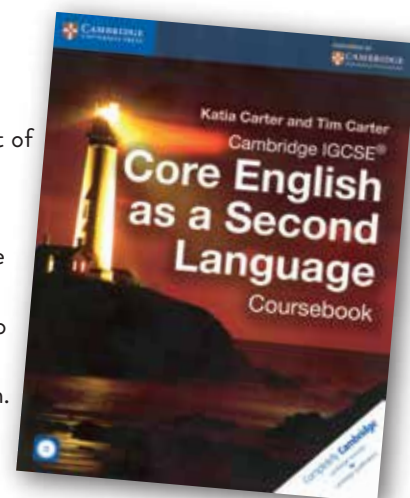

### Key Features:

- The Coursebook includes sections of grammar and vocabulary in context to provide students with language essentials.
- Students' progress from the language sections to 'Activate your English' projects to practise their English in communicative activities.
- Exam-style questions offer further opportunity to practise and prepare for examination.

### Other features include:

- An audio CD for use with the listening exercises.
- Study tips, key term boxes and 'Did you know?' boxes with interesting facts related to the topics.
- 'Project work' to expand the language acquired and contextualizes students' learning.

Coursebook ISBN 978 110 751 566 6  
Teacher's Book ISBN 978 110 751 571 0

Collins

Cambridge IGCSE™

## English

Authors: Julia Burchell, Mike Gould, Keith Brindle, Steve Eddy, Ian Kirby, Claire Austin-Macrae, Nigel Carlisle, Joanna Fliski, Robin Wilson and Elizabeth Walter

Students progress with a clear structure that moves from building key reading, writing and technical skills to applying them to specific question types and coursework tasks.

### Key Features:

#### Student's Book

- Offer plenty of practice opportunities with end-of chapter questions and two practice papers
- Build confidence in speaking and listening with clear guidance, activities and discussion tasks

#### Workbook

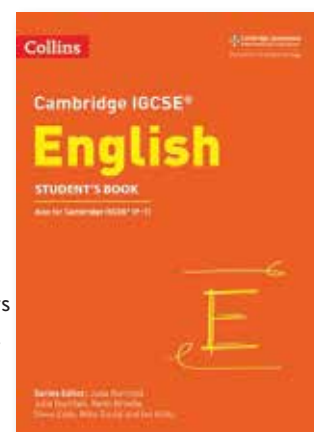

- Offer practice of the key skills, covering teaching points in more depth and with more scaffolding
- Build students' writing stamina and fluency for all the writing forms and purposes with exam-style question tasks

#### Teacher's Guide

- Save time on planning with a two-year scheme of work and more.

## CAMBRIDGE IGCSE™ ENGLISH AS A SECOND LANGUAGE

**Authors:** Susan Anstey, Alison Burch, Lucy Cooper, Jane Gould, Mike Gould, Karen Harper, Lucy Hobbs, Avril Kirkham, Shubha Koshy, Julie Moore, Sioban Parker, Lorna Pepper, Nicola Prentis, Celia Wigley, Emma Wilkinson

Provide engaging content, skills-building exercises and exam practice to help students achieve their full potential.

### Student's Book

- Offer equal coverage of all four skills (reading, writing, listening and speaking)
- Showcase and discuss a rich variety of authentic reading texts and audio with a global, multicultural focus
- Provide plenty of skills-building activities and practice opportunities to help prepare for assessment

### Workbook

- Set homework quickly and easily with a write-in, full colour Workbook
- Provide students with further practice to consolidate and extend knowledge
- New synonyms practice section and speaking skills advice section included

### Teacher's Guide

- Save time with comprehensive lesson plans, photocopiable worksheets, activities and ideas for differentiation and extension
- Guidance given on how to help students prepare for speaking tests and advice for online teaching

## Collins Grammar for GCSE English

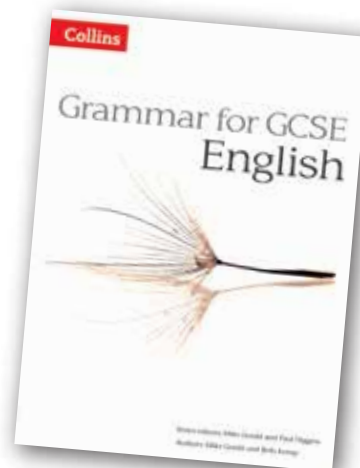

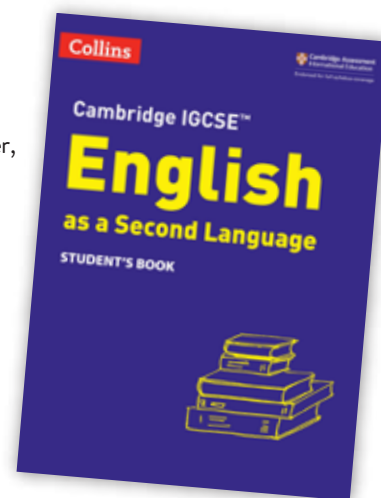

**Authors:** Mike Gould and Beth Kemp

Each of the thirty-six tutorials explains a key aspect of grammar, spelling or punctuation within a GCSE or IGCSE writing context. By exploring the choices other writers make, you will learn how to strengthen your own writing at a word, sentence, paragraph and whole-text level.

### Key Features:

- Contains over 30 stimulating tutorials which can be used in regular grammar sessions or as an intensive intervention programme.
- Written by a team of experienced teachers and consultants, and trialled in the classroom
- Explores the choices other writers make to show students how to strengthen their own writing at a word, sentence, paragraph and whole text level.
- Focuses on the specifics of writing to inform and explain; writing to summarise; writing to argue and persuade; writing to explore and analyse; and writing to describe and narrate with a dedicated chapter on each writing purpose.

ISBN 978 000 754 755 5

Collins  
Cambridge IGCSE™  
**Literature in English**

**Authors:** Anna Gregory, Mike Gould, Alexandra Melville, Kurt A. Johnson and Chris Green

Introduce students to the fundamental concepts of literary study and provide support in applying them to poetry, prose and drama. This resource also supports the Cambridge O Level and the Cambridge IGCSE™ World Literature syllabus.

**Student's Book**

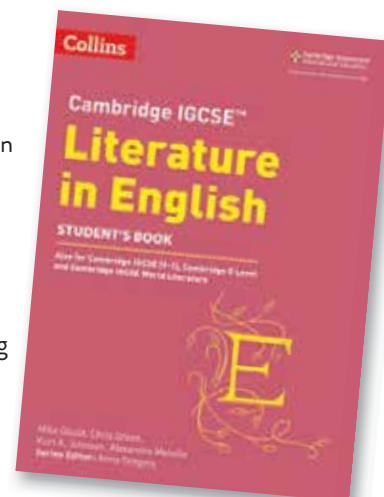

- Helps students progress by teaching the underlying skills and concepts before applying them in passage-based, discursive and unseen tasks
- Supports students with clear differentiation: introductory chapters build learners' confidence, the main chapters offer greater depth, while extension lessons help students reach their full potential
- Engages students with rich, varied text extracts from a variety of periods and cultures

**Teacher's Guide**

- Saves time on planning and preparation with a two year scheme of work and differentiated lesson plans,

Cambridge IGCSE

**Mathematics**

**Core and Extended Coursebook**

Second edition

Authors: Karen Morrison and Nick Hamshaw

Cambridge IGCSE™ and IGCSE (9-1) syllabuses (0580/0980).

The series promotes a deeper understanding of mathematical concepts, helping students develop critical thinking skills that go beyond the scope of the classroom.

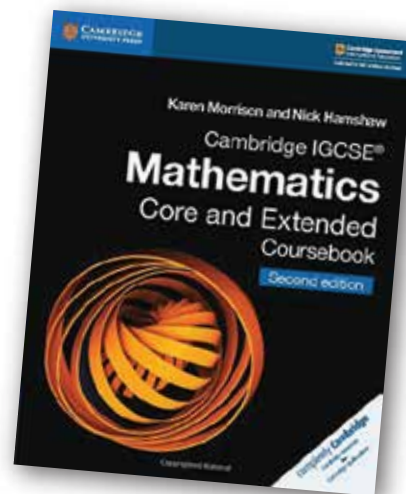

#### Coursebook

The coursebook promotes a spiral learning cycle that incorporates algebra, number, geometry, data and statistics with a coherent progression to demonstrate the interconnected relationships of mathematics.

- Covers materials for both Core and Extended aspects of the syllabus.
- Explanations of mathematical concepts and clear worked examples guide students through the course, with rich exercises providing practice materials for students to consolidate skills.
- Contains opportunities for formative assessment at the end of each chapter and exam-practice opportunities.

Cambridge O Level

## Statistics

Second edition

Authors: Dean James Chalmers

- **Cambridge O Level Statistics** develops the use of statistical techniques through a skill-building approach, encouraging the application of knowledge to a range of statistical problems.
- The content has been written to offer a range of tasks that support all aspects of the Cambridge O Level Statistics (4040) syllabus, giving students the confidence to use and interpret statistical data using graphs, tables and diagrams.
- The Coursebook provides learners with opportunity to practise and consolidate these skills, while understanding the ideas, methodology and terminology used in statistics.

Collins

Cambridge IGCSE™

## Maths

Fourth edition

Working with Cambridge Assessment International Education towards endorsement of these resources to support the syllabus for examination from 2025.

Authors: Chris Pearce and Isabel Marsden

Provide in-depth coverage of every aspect of the revised Cambridge IGCSE Mathematics syllabus (0580/0980).

### Student's Book

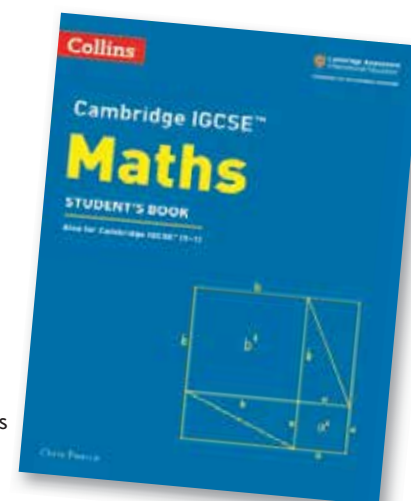

- Grow confidence working without a calculator with clearly labelled questions and exercises
- Emphasise the relevance of maths with **Why this chapter matters** sections showing maths in everyday life or historical development
- Consolidate understanding with tried and tested questions in extensive practice exercises and detailed worked examples
- Help learners understand complex mathematical terminology with a clear key term definitions glossary

### Teacher's Guide

- Detailed three-part lesson plans include clear syllabus references, common mistakes and remediation, and useful tips
- Raise standards with extra practice sheets with consolidation and extended questions
- Supply ready-made homework for every lesson with printable and editable homework worksheets

**Additional Maths**  
Second Edition

Working with Cambridge Assessment International Education towards endorsement of these resources to support the syllabus for examination from 2025.

**Authors:** David Bird, Su Nicholson, Claire Powis, Peter Ransom, Trevor Senior, Brian Speed and Colin Stobart

Building on Cambridge IGCSE Mathematics, this course tests students' initial understanding and prepares them for Additional Maths content. This course also supports Cambridge O Level.

**Student's Book**

- Consolidate understanding with tried and tested questions in extensive practice exercises
- Develop confidence working without a calculator with clearly labelled questions and exercises
- Support students in developing problem-solving skills with flagged questions that require them to apply their skills and understanding
- Emphasise the relevance of maths in everyday life with Why this chapter matters sections
- Deliver a fully international course with international examples, contexts, names, currencies and locations

**Workbook**

- Teach straight away with detailed lesson plans that include clear syllabus references, useful tips, common mistakes and remediation guidance
- Save time with printable homework and extension worksheets to support all student types

Marshall Cavendish  
GCE O Level  
**Biology Matters**  
Second Edition

**Authors:** Lam Peng Kwan and Eric Y K Lam

Biology Matters 2nd Edition, covers the latest Cambridge GCE O Level Biology syllabus. This textbook has been updated to engage, enrich and inspire students' interest and learning.

#### Textbook

- Learning is made easy and enjoyable: Infographics, flow charts and annotated diagrams are used to present concepts clearly to aid understanding and enrich learning.
- Reinforces concepts and builds application skills: Numerous authentic examples and hands-on activities help to make learning relevant as well as strengthen conceptual understanding.
- Hones higher-order thinking skills and prepares students for examination: Various examination-style and data-based questions allow students to apply their knowledge and have ample exam practice.
- Develops 21<sup>st</sup> Century competencies: helps to cultivate important skills, such as, critical and inventive thinking, ICT skills and collaboration skills.

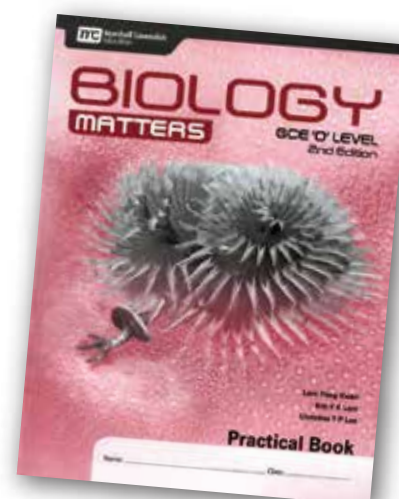

#### Workbook

- The Workbook is specifically developed to complement the Biology Matters textbook.
- Worked examples highlight the essential points.
- A trial Examination Paper is also included to give further practice and boost exam confidence.

#### Practical Book

- The experiments are designed to facilitate hands-on learning and encourage good laboratory practice, safety and technique.
- Skills that students need to demonstrate are given at the start of each experiment. These skills include using and organising techniques, apparatus and materials; making and recording observations and measurements; and handling experimental observations and data.

### Economics

Second Edition

Author: Susan Grant

Covers the Cambridge IGCSE syllabus (0455) and the Cambridge O Level syllabus (2281), first examination from 2020.

This series helps students understand economic theory, terminology and principles. The coursebook helps students apply tools of economic analysis, make judgements on economic issues, use basic economic numeracy and literacy, and take greater part in decision-making processes in everyday life. Sample questions provide opportunities for students to develop their evaluative skills. It provides a foundation for advanced study in Economics such as A Level.

Answers to the coursebook and workbook questions are in the teacher's resource.

Cambridge IGCSE™  
**ICT**  
Third Edition

Authors: Victoria Wright, Denise Taylor, David Waller and Evans Chikasa

Cambridge IGCSE™ ICT syllabus (0983/0417) for examination from 2023.

With the new edition students will develop a solid understanding of how and why technology and communication are core to the world we live in. With a new focus on strengthening practical skills, learners will apply their theory to real-life scenarios – building core skills they will use in all areas of life.

#### Coursebook

- New 'ICT in context' feature brings ICT to life and adds relevancy to students' learning
- 'Getting started', 'Practice' and 'Challenge' activities throughout provide a tiered approach to practical tasks, building skills and challenging more confident students
- New 'Reflection' feature at the end of each chapter to encourage students to assess and evaluate their learning journey
- A wealth of new exam-style questions in every chapter provide students with theory and practical exam-style preparation activities throughout the course

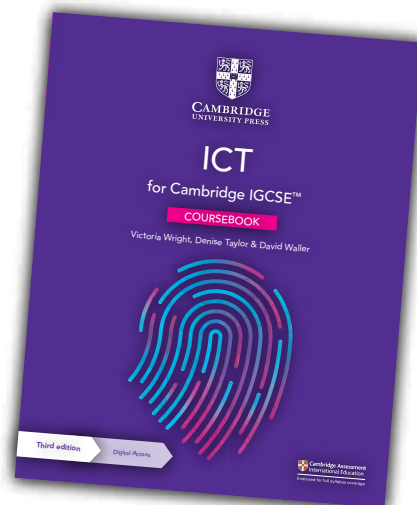

#### Practical skills workbook

The skills workbook includes additional scaffolded practical tasks, worked examples, key words, a self-assessment feature and a wealth of source files.

#### Teacher's resource

Our new resource includes over 400 teaching activity ideas, as well as teaching plans, language support, advice on common misconceptions, differentiated worksheets, homework ideas and exam-style papers.

**Computer Science**  
Second edition

**Author:** Sarah Lawrey and Victoria Ellis, Chris Roffey, Richard Morgan and Dave Duddell

Cambridge IGCSE™ and O Level Computer Science syllabuses (0478/0984/2210) for examination from 2023.

The new series builds upon the fundamentals of computational thinking and programming, brought to life through real-life contexts and applications.

**Coursebook**

- New case studies from Microsoft Research demonstrate how computer science can be applied in real-life scenarios; these are supported by the new ‘Computer science in context’ feature connecting students to real-life scenarios and technology
- New ‘Introduction to studying Computer Science’ chapter supports students with little prior learning, helping them get up to speed with the key concepts
- New ‘Skills focus’ sections develop students’ mathematical, computational thinking and programming knowledge, including step-by-step examples and questions
- New ‘Self-evaluation checklists’ and peer-assessment features encourage students to reflect on their own progress and learn from each other
- A wealth of new exam-style questions in every chapter provide students with exam-style preparation activities throughout the course

**Teacher’s resource**

- Includes over 200 teaching activity ideas, as well as teaching plans, language support, differentiated worksheets and exam-style papers to save you much-needed time
- Answers for all resources are accessible to teachers for free via **Cambridge GO**

for Cambridge International AS and A Level

Second edition

Author: Elizabeth Whittome

The second edition is suitable for Cambridge International AS & A Level Literature in English syllabus (9695) for first examination from 2021. For students taking the examination in 2020, use the first edition of the coursebook and teacher's resource.

Updated and fully aligned with the new syllabus, texts range across 650 years and from authors from 20 different nationalities.

This series provides students with exciting and diverse reading material from old and new writers, from Shakespeare to Jhumpa Lahiri.

Through exploring these texts, students will find they are building essential skills – such as the ability to write clearly and effectively, construct an argument, manage information and analyse complex pieces.

## Coursebook

- Provides flexible, in-depth guidance for students on how to analyse poetry, prose and drama.
- Includes annotated sample answers and a dedicated section on 'Essay writing skills and techniques.'
- Helps students develop a 'toolkit' for studying literature that will enable them to approach unseen texts with confidence.

## Teacher's resource

- Includes editable worksheets, PowerPoints and lesson plans to help tailor the course to the class needs.
- Helps you take an active approach to teaching Cambridge International AS & A Level Literature in English.

AS & A Level

# Literature in English

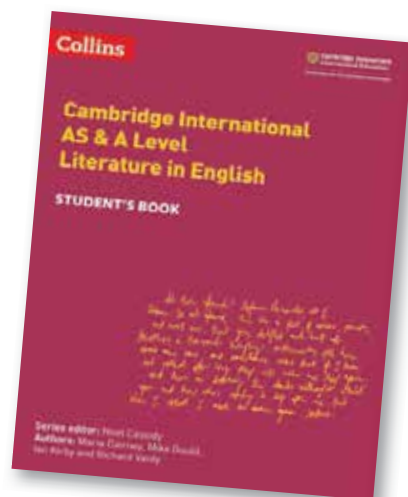

Authors: Mike Gould, Maria Cairney, Ian Kirby and Richard Vardy

Builds knowledge in a clear sequence and helps apply skills to a range of language tasks, with coverage of the syllabus topics and a stimulating range of international texts.

## Student's Book

- Develop effective writing throughout with dedicated activities and exemplar student answers to model different ways of responding to texts
- Help students progress with clear, step-by-step learning, moving from exploration to supported analysis to independent writing, and building towards exam-style tasks at the end of each chapter
- Show students how to apply the fundamental skills to write about the three major forms of poetry, prose and drama, and to respond to unseen texts
- Allow students to explore different writers' choices and their effects with international texts from a variety of periods and cultures

### English Language

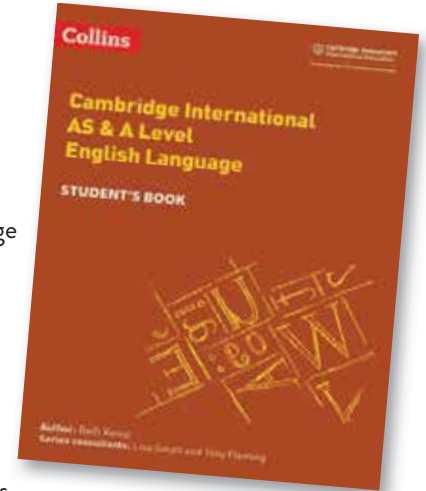

Authors: Beth Kemp

Builds skills and knowledge in a clear sequence and helps to apply skills to a range of language tasks, with coverage of the syllabus topics and a stimulating range of international texts.

#### Student's Book

- Build writing and analytical skills by introducing students to different modes of analysis and the conventions of different writing forms and purposes
- Explore the relevant linguistic theories and help students to apply these ideas in their own arguments and analysis of texts, transcripts and data
- Offer step-by-step support for responding to a range of tasks with sample responses at different levels to help students understand how to improve
- Build confidence for assessment with complete exam style practice papers

Cambridge University Press  
Cambridge International AS Level  
English General Paper

Author: Jill Pavich

The only endorsed resources for the Cambridge International AS Level English General Paper syllabus (8021)

Through exploration of a wide array of topics, from celebrity culture to poetry in the modern world, this book focuses on strengthening communication, evaluation, analysis, application and understanding skills. Helping students improve their written responses, use of English and comprehension, this coursebook looks at discussion points relevant to the globally-minded classroom. With frequent practice questions and sample answers, students have plenty of opportunities to build their confidence answering questions. Answers to coursebook questions are in the teacher's resource. Supports group 4 of the Cambridge AICE Diploma.

Cambridge International  
AS & A Level Mathematics:  
**Pure Mathematics 2 & 3**

**Authors:** Sue Pemberton and Julianne Hughes  
**Series Editor:** Julian Gilbey

This series has been developed specifically for the Cambridge International AS & A Level Mathematics (9709) syllabus to be examined from 2020. Cambridge International AS & A Level Mathematics: Pure Mathematics 2 & 3 matches the corresponding units of the syllabus. It clearly indicates materials required for P3 study only, and contains materials on topics such as logarithmic and exponential functions, trigonometry, differentiation, integration, numerical solutions of equations, vectors and complex numbers. This coursebook contains a variety of features including recap sections for students to check their prior knowledge, detailed explanations and worked examples, end-of-chapter and cross-topic review exercises and 'Explore' tasks to encourage deeper thinking around mathematical concepts. Answers to coursebook questions are at the back of the book.

This title offers additional practice exercises for students following the Pure Mathematics 2 & 3. The materials follow the same order as the corresponding coursebook and contain extra worked examples to help students understand the skills required of the syllabus. End-of-chapter review exercises are also provided to help students conduct self assessment, with answers at the back of the book to check understanding.

Cambridge International  
AS & A Level Mathematics:  
**Mechanics**

**Authors:** Jan Dangerfield and Stuart Haring  
**Series Editor:** Julian Gilbey

This series has been developed specifically for the Cambridge International AS & A Level Mathematics (9709) syllabus to be examined from 2020. Cambridge International AS & A Level Mathematics: Mechanics matches the corresponding unit of the syllabus, with clear and logical progression through. It contains materials on topics such as velocity and acceleration, force and motion, friction, connected particles, motion in a straight line, momentum, and work and energy. This coursebook contains a variety of features including recap sections for students to check their prior knowledge, detailed explanations and worked examples, end-of-chapter and cross-topic review exercises and 'Explore' tasks to encourage deeper thinking around mathematical concepts. Answers to coursebook questions are at the back of the book.

This title offers additional practice exercises for students. The materials follow the same order as the corresponding coursebook and contain extra worked examples to help students understand the skills required of the syllabus. End-of-chapter review exercises are also provided to help students conduct self assessment, with answers at the back of the book to check understanding.

AS & A Level Mathematics:  
**Probability & Statistics 1**

**Author:** Dean Chalmers  
**Series Editor:** Julian Gilbey

This series has been developed specifically for the Cambridge International AS & A Level Mathematics (9709) syllabus to be examined from 2020. Cambridge International AS & A Level Mathematics: Probability & Statistics 1 matches the corresponding unit of the syllabus, with a clear and logical progression through. It contains materials on topics such as data, variation, probability, permutations and combinations, binomial and geometric distributions, and normal distribution. This coursebook contains a variety of features including recap sections for students to check their prior knowledge, detailed explanations and worked examples, end-of-chapter and cross-topic review exercises and 'Explore' tasks to encourage deeper thinking around mathematical concepts. Answers to coursebook questions are at the back of the book.

This title offers additional practice exercises for students. The materials follow the same order as the corresponding coursebook and contain extra worked examples to help students understand the skills required of the syllabus. End-of-chapter review exercises are also provided to help students conduct self assessment, with answers at the back of the book to check understanding.

Cambridge International AS & A Level Mathematics  
and Cambridge International AS & A Level

## Further Mathematics

**Authors:** Lee Mckelvey and Martin Crozier

This series promotes a deeper understanding of mathematical concepts, helping students develop critical thinking skills that go beyond the classroom.

### Coursebooks

Written specifically for the international learner, these coursebooks provide clear and logical progression to help students develop the mathematical skills required in their chosen route to AS or A Level. They include recap sections, detailed explanations, worked examples, cross-topic review exercises and 'Explore' tasks that encourage deeper thinking around mathematical concepts. The coursebooks also benefit from links to 'Underground Mathematics' exercises throughout.

### Further Mathematics

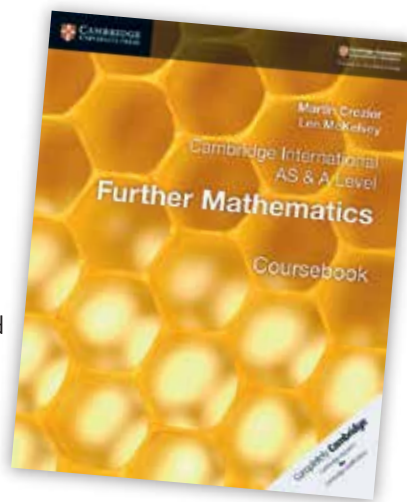

Our coursebook provides explanations of mathematical concepts followed by exercises for students to practise the required skills. The book contains classroom discussion exercises, extra challenge questions and examples of worked solutions.

### Teacher's resource

In response to feedback from teachers around the world, we've produced a comprehensive teacher's resource to help you with lesson planning. This teacher's resource offers guidance for all five coursebook components.

### Practice books

The practice books work alongside each coursebook for the syllabus. They provide additional worked examples and exercises that follow the order of topics in the coursebook to give students further opportunity to practise and consolidate their mathematical skills.

AS & A Level Mathematics:

## Pure Mathematics 1

**Author:** Sue Pemberton

This series has been developed specifically for the Cambridge International AS & A Level Mathematics (9709) syllabus to be examined from 2020. Cambridge International AS & A Level Mathematics: Pure Mathematics 1 matches the corresponding unit of the syllabus, with a clear and logical progression throughout. It contains materials on topics such as quadratics, functions, coordinate geometry, circular measure, series, differentiation and integration. This coursebook contains a variety of features including recap sections for students to check their prior knowledge, detailed explanations and worked examples, end-of-chapter and cross-topic review exercises and 'Explore' tasks to encourage deeper thinking around mathematical concepts. Answers to coursebook questions are at the back of the book.

This title offers additional practice exercises for students following the Pure Mathematics 1. The materials follow the same order as the corresponding coursebook and contain extra worked examples to help students understand the skills required of the syllabus. End-of-chapter review exercises are also provided to help students conduct self assessment, with answers at the back of the book to check understanding.

Collins  
Cambridge  
International AS & A Level  
**Mathematics**

**Authors:** Louise Ackroyd, Tom Andrews, Helen Ball, Chris Chisholm, Jonny Griffiths, Michael Kent, Sharon McBride and Chris Pearce

This five-book series builds students' key mathematical skills and inspires them to pursue STEM (science, technology, engineering and mathematics) careers and further study routes.

**Student's Book**

- Cover the complete content of the syllabus in five books: Pure Mathematics 1, Pure Mathematics 2 & 3, Statistics 1, Statistics 2 and Mechanics
- Help to prepare students for assessment with exam-style questions and carefully selected Cambridge past paper questions
- Offer plenty of practice opportunities with clear explanations and worked examples on each topic with full workings available for each answer
- The Mathematics in Life and Work theme throughout shows students how maths is used in a range of careers and further study routes

## Collins Cambridge International AS & A Level Physics

**Authors:** Chris Bishop, Carol Davenport, Richard Grimmer, Lynn Pharaoh and Michael Smyth

Allows students to develop and strengthen practical skills in a range of contexts, deepens understanding of key concepts and provides opportunities to draw connections between topics in Biology, Chemistry and Physics.

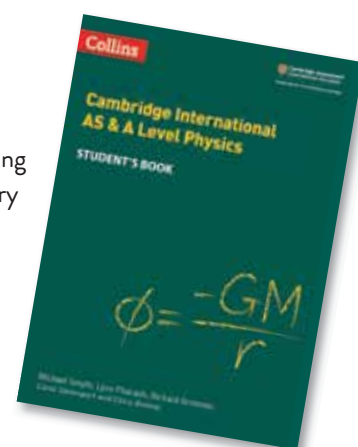

### Student's Book

- Provide a clear emphasis on developing practical skills and handling, applying and evaluating data to equip students for a wide range of careers and further study
- Allow students to reflect on previous learning with prior understanding reviews, whilst end-of-chapter mind maps provide a summary of learning covered
- Offer regular opportunities to handle, apply and evaluate data as well as recap understanding through assignments and experimental skills features
- Challenge and stretch students with exam-style questions and extension exercises

### Teacher's Guides

- Digital teacher support includes syllabus mapping, notes on common misconceptions, a wealth of activities and regular assessments

Cambridge  
International AS &  
**A Level Economics**  
Fourth Edition

**Authors:** Colin Bamford, Susan Grant, George Vlachonikolis, Mark Collins and Roger Croft

Cambridge International AS & A Level Economics syllabus (9708) for examination from 2023.

Introduces students to the world of economics, whilst helping them develop key skills such as application and evaluation,

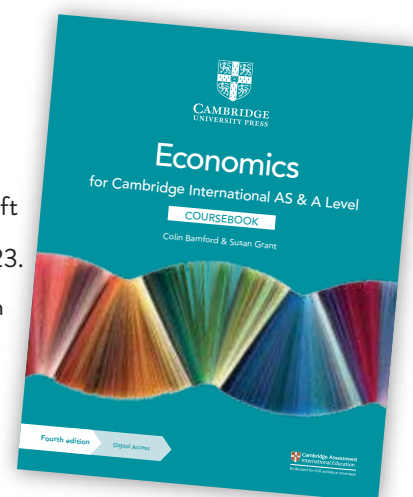

**Coursebook with digital access**

- Essay-writing activities build key skills including analysis and evaluation, and prepare students for assessment
- Mixture of local and global case studies ensures content is relevant to all learners and encourages an interest in the subject

**Workbook**

- Key skills and scaffolded practice questions allow students to put into practice what they have learnt from the coursebook
- Worked examples offer step-by-step guidance and are ideal for revision
- 'Improve this answer' activity helps student develop their evaluation skills and understand what a 'good' answer looks like

Coursebook with digital access	978-1-108-90341-7

**Economics**

Eighth Edition

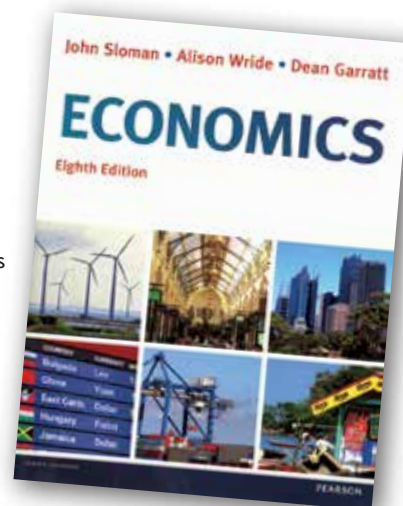

Authors: John Sloman, Alison Wride and Dean Garratt

The Eighth edition of Economics contains the most up-to-the minute coverage and uses the latest data to track and analyse the impact of the global financial crisis on our economy.

'Economics' is popular for its active learning and student-friendly approach, and the new edition retains its classic features that provide a solid foundation for the study of economics, while covering much of the recent turmoil in the economy.

- Comprehensive coverage of the credit crunch, the subsequent global recession, the legacy of debt, faltering recovery in the world economy and the policy debates about tackling the problems.
- Theoretical coverage has been strengthened; there are now sections on behavioural economics in Chapters 4, 8 and 9, and the sections on money and banking, and on fiscal and monetary policies, have been extended to deal with the continuing problems of bank and sovereign debt.
- Complete update of boxes, examples, tables, charts and factual references given.

ISBN 978 027 376 324 6

Hodder

Cambridge International

AS &amp; A Level

**Economics**

Second Edition

Author: Peter Smith, Adam Wilby and Mila Zasheva

**Student's Book**

Build strong subject knowledge and an international outlook with expert author guidance and in-depth coverage of the revised syllabus.

- Understand how the key concepts relate to real-life contexts with numerous international case studies.
- Ensure a thorough understanding with synoptic links that encourage students to apply their knowledge across different elements of the course.

**Workbook**

Develop and strengthen understanding with a mixture of skills questions and exam-style questions covering commonly used command words, plus tips on thinking like an economist with evaluative and analytical skills discussed.

### Accounting

**Authors:** David Hopkins, Deborah Malpas, Harold Randall, Michael Seagrove, Julie Whatford and Sharon Elan-Puttick

Cambridge International AS & A Level Accounting syllabus (9706) for examination from 2023.

Empower students to become confident learners and achieve success with the third edition of the Cambridge International AS & A Level Accounting series.

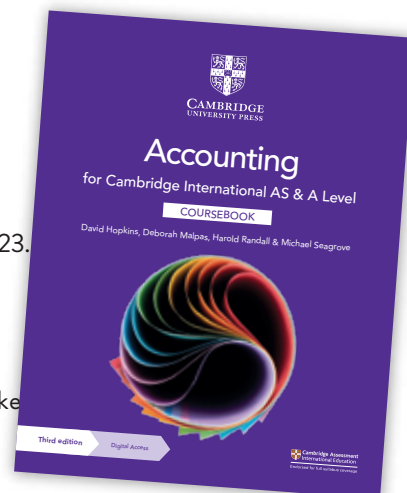

#### Coursebook with digital access

- 'Accounting in context' and 'Think like an Accountant' features help students make real-world connections to their studies
- Key terms, key concepts and command words are defined for English as a second language learners
- Practice questions, exam-style questions, worked examples and sample answers help students prepare for assessment

#### Workbook

- Worked examples offer step-by-step guidance for developing knowledge and revision
- 'Improve this answer' activity helps students develop their evaluation skills and understand what a 'good' answer looks like

### Accounting

**Authors:** Ian Harrison and David Horner

#### Student's Book Second edition

Provide the knowledge, understanding and skills required to succeed with a clear and accessible resource.

- Strengthen subject knowledge with a range of question types designed to test understanding of key topics within the syllabus, including past paper and exam-style questions.
- Unpack challenging concepts with a course that's written for international students and includes suitable content and language levels.

#### Workbook

Use this skills-based Workbook throughout the course to practise and develop independent learning by answering a range of questions and activities.

- Practise key skills and accounting concepts with write-in space to keep track of answers.
- Enable students to regularly identify and address gaps in learning.
- Encourage students to learn at home by set targeted homework assignments.

### Business

**Authors:** Malcolm Surridge, Andrew Gillespie and Jane King

#### Student's Book Second edition

Build strong subject knowledge and an international outlook with expert guidance and in-depth coverage of the revised syllabus.

- Understand how the key concepts relate to real business contexts with numerous case studies from multinationals and businesses around the world.
- Develop quantitative skills with opportunities to interpret business data throughout.
- Check understanding with exam-style questions at the end of every chapter.

#### Workbook

Enable students to practise and apply knowledge by answering a range of questions and activities.

International AS & A Level  
**Business**

**Authors:** Peter Stimpson, Alastair Farquharson, Kelly Chalk and Deborah Malpas

Cambridge International AS & A Level Business syllabus (9609) for examination from 2023.

This series inspires students to develop an understanding of business and business-related concepts, whilst guiding them through the Cambridge International AS & A Level Business syllabus.

#### Coursebook

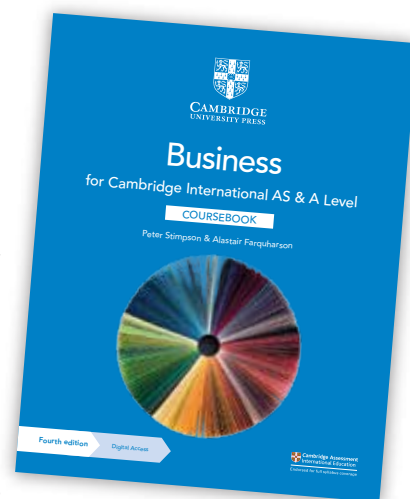

Build strong subject knowledge and an international outlook with expert guidance and in-depth coverage of the revised syllabus.

- 'Getting started with' chapter to support student transition from Cambridge IGCSE™ to Cambridge International AS & A Level
- 'Business in context' and 'Business in action' features enable students to make real-world connections to their studies
- 'Preparing for assessment' chapter, including revision strategies, helps learners get ready for examination
- Mixture of local and global case studies ensures content is relevant to all students and encourages their interest in the subject

#### Workbook

- Focuses on the development of four key skills: Knowledge and Understanding, Application of Knowledge and Understanding, Analysis, and Evaluation
- Worked examples including 'improve this answer' activities help students develop their evaluation skills and understand what a 'good' answer looks like

## Psychology

Second edition

**Authors:** Julia Russell, Lizzie Gauntlett, Amy Papaconstantinou, Jonathan Firth and Kirsty White

Designed to support the Cambridge International AS & A Level Psychology syllabus (9990) for examination from 2024.

Marvel at the complexities of the human mind with new editions of the Cambridge International AS & A Level Psychology series. Engaging questions and activities develop essential scientific skills and encourage a focus on research methods and discussions around important moral and ethical issues.

### Coursebook

- Activities encourage the development of essential scientific skills such as analysis, interpretation, application and evaluation
- Regular self-assessment and peer-assessment features provide reflection opportunities to develop confident, independent learners
- A focus on research methods, ethics and crucial debates develops student understanding of their implications
- Case studies engage student understanding and help put theory into context

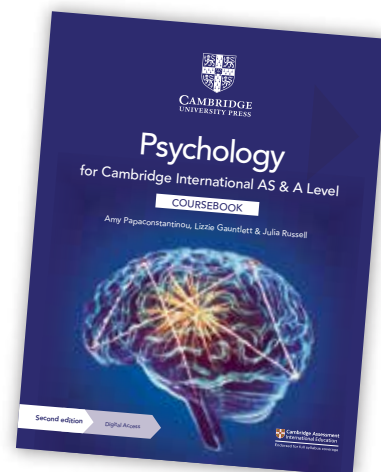

### Workbook

- Questions and exercises provide opportunities to consolidate knowledge and hone essential science skills
- Includes exercises focused on the application of research methods and issues, and debates for each topic

Cambridge International AS Level  
**International History 1870–1945**

Author: Phil Wadsworth

This series is for the Cambridge International AS History syllabus (9489) for examination from 2021. Written by an author with experience writing, examining and teaching, this coursebook supports the Cambridge International AS History syllabus.

With increased depth of coverage, this coursebook helps build confidence and understanding in language, essay-writing and evaluation skills. The coursebook also develops students' conceptual understanding of history with the five new 'Key concepts', for example exploring cause and consequence in the Second Sino-Japanese War. In addition, it encourages individuals to make substantiated judgments and reflect on their own learning. Students can also consolidate their skills through exam-style questions with source material and sample responses.

### Thinking Skills

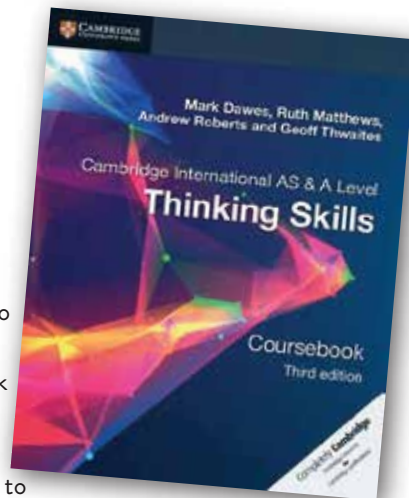

Third edition

**Authors:** Mark Dawes, Ruth Matthews, Andrew Roberts and Geoff Thwaites

This series helps students and teachers following the Cambridge AS & A Level Thinking Skills syllabus (9694) for examination from 2020. Universities and employers have high expectations for 21<sup>st</sup> century learners. They want students who can think critically, collaborate efficiently and produce creative solutions to problems. With more practice questions than the previous edition, this coursebook provides opportunities for students to improve both their critical thinking and problem solving skills. It walks students through different scenarios - such as drawing conclusions from arguments - explaining the thinking process involved and helping to increase confidence when thinking independently. Suggested answers to the coursebook questions are in the teacher's resource.

## English A: Language and Literature

for the IB Diploma

Second edition

Authors: Brad Philpot, David McIntyre and Tim Pruzinsky

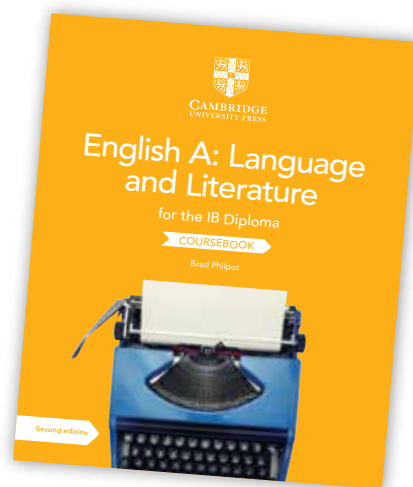

### Coursebook with digital access

- There are three sections in the coursebook – text types, global issues and assessment – helping you to focus lessons on specific aspects of the course
- The first section defines and explores a range of literary and non-literary text types, such as street art, graphic novels and poetry
- The 'Global issues' section integrates all three areas of exploration (readers, writers and texts; time and space; intertextuality)
- The final section of the coursebook includes specimens and samples of Paper 1, Paper 2, the individual oral and the essay to help students prepare for assessment
- The coursebook is full of ideas to help students build a learner portfolio

### Digital teacher's resource

- Contains PowerPoint presentations and photocopiable worksheets for ready-made class materials
- Teacher development essays help you with differentiation and text selection

### New Business Management for the IB Diploma

**Authors:** Peter Stimpson, Adamantia Malli-Charchalaki and Alexander Smith

Help students become the business leaders of the future, with our Business Management series updated for the new syllabus (M2024) for examination from 2024.

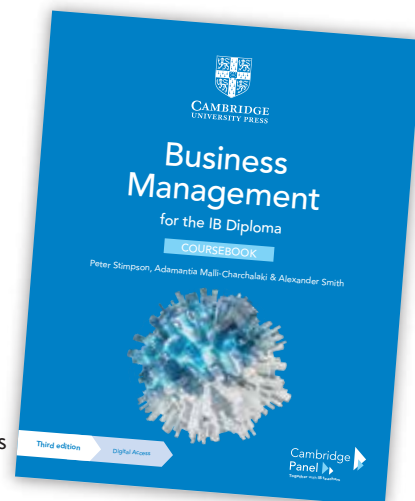

This series offers in-depth syllabus coverage and is authored by experienced teachers, examiners and syllabus experts. Students are supported for exam success with numerous exam-style questions, exam papers and end-of chapter tests.

#### Coursebook with digital access

- Includes scaffolded activities to develop students with support, stretch and challenge activities
- Each chapter begins with a 'Business in context' case study to engage learners and introduce them to the topic
- Includes self-evaluation checklists, exam-style questions and a project task to support Paper 3 and internal assessment
- International case studies encourage students to develop application, analysis and evaluation skills
- Case study questions provide opportunities for collaborative group work and encourage the development of critical thinking skills
- Presentation opportunities help develop learners' 21<sup>st</sup> century skills

### Economics

for the IB Diploma

Authors: Ellie Tragakes

Students will develop a solid understanding of economic theory and how it manifests in the real world. In addition to helping students obtain the best results, it encourages them to become internationally minded citizens and develops core problem solving skills.

#### Coursebook with digital access

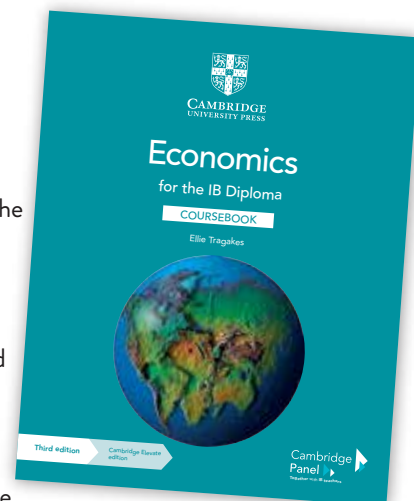

- 'Before you start' questions at the beginning of each chapter challenge students' opinions around key economic themes and spark discussion before the unit starts
- 'Learning objectives' link to the assessment objectives in the guide, helping students know exactly what they need to focus on in each section
- 'Real world focus' activities link economic theory to real-life international events and include 'Applying your skills' questions
- English as a second language (ESL) learners are supported through clear and concise language, with key points and vocabulary highlighted throughout and reviewed in the glossary
- Links to TOK encourage students to explore economics topics from different perspectives
- 'Inquiry' and 'Reflection' activities at the end of each chapter get students reviewing their own learning

## History

for the IB Diploma

Papers 1, 2 and 3

- The titles are source-led and encourage the development of investigative, interpretive and analytical skills, which help your learners become independent thinkers
- Relevant links to TOK and Key Concepts in the syllabus encourage reflective discussion and help students integrate these concepts into their wider learning
- Activities foster an exploratory and inquiring approach, and exam-style questions help prepare students for assessment
- The series covers topics from the Standard and Higher Level options

### Paper 1: History for the IB Diploma, Paper 1

includes a choice from three coursebooks that each cover a 20th century topic from the syllabus: The Move to Global War (Japanese and German/Italian expansion), Rights and Protest (US Civil Rights and Apartheid) and Conflict and Intervention (Rwanda and Kosovo).

### Paper 2: History for the IB Diploma, Paper 2

includes a choice from five coursebooks that each cover a 20th century topic from the syllabus: Independence Movements (1800–2000), Evolution and Development of Democratic States (1848–2000), Authoritarian States (20th Century), Causes and Effects of 20<sup>th</sup> Century Wars and The Cold War: Superpower Tensions and Rivalries.

With resources for the history of the Americas, Europe, Asia and Oceania you have the widest topic choice for Paper 3.

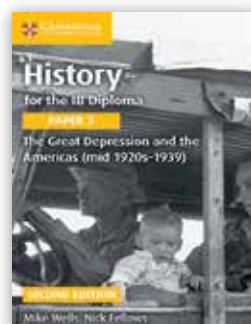

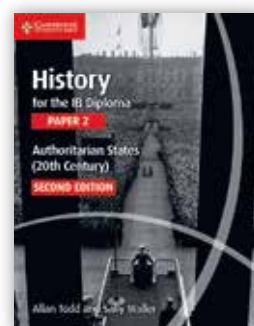

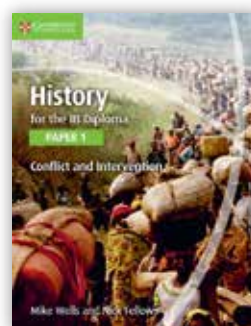

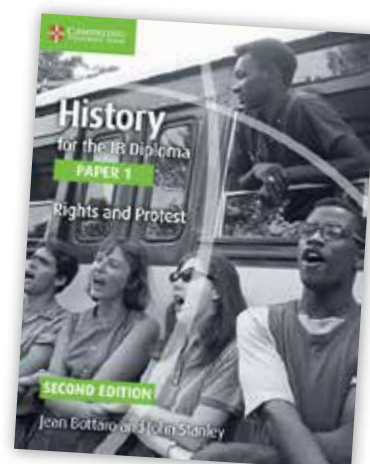

- Provides historical accounts, along with detailed explanations and analysis
- An emphasis on historical debates prepares students for the in-depth Extended Essay required in the Paper 3 examination
- Clear essay-writing and exam guidance
- Covers selected topics from the Higher Level options in the updated IB History syllabus

### History for the IB Diploma

Authors: Jo Thomas and Keely Rogers

Develop your students' skills to become inquiring learners; ensure they navigate the MYP framework with confidence using a concept-driven and assessment-focused approach to History, presented in global contexts.

- Explore business management through the four key concepts in the new course: change, creativity, ethics and sustainability and their interrelationships with each other, covering all five syllabus units: Business Management; Human Resource Management; Finance and Accounts; Marketing; and Operations Management.
- Delve into business theories using case studies and real-world examples which allow students to create their own questions and formulate their own solutions to problems or issues facing organisations, with an appreciation of differing viewpoints.

### Psychology for the IB Diploma

Authors: Jacob Solomon

Delve into human behaviour by studying real cases. Through studies of famous psychologists, students learn about the diversity of human behaviour and the factors that influence our decisions.

- The 'Newsflash' feature gives real-life examples of psychology, so students see how the subject relates to the world around them
- International case studies and concise definitions of important concepts make this an ideal resource for learners whose first language is not English
- The coursebook covers both Standard and Higher Level content
- Suggested answers to the coursebook questions are at the back of the book

### Theory of Knowledge for the IB Diploma

Authors: Wendy Heydorn, Susan Jesudason and Richard van de Lagemaat

This series helps students flourish as knowers by leading them to make connections across areas of knowledge and themes, as well as helping them understand how Theory of Knowledge (TOK) manifests in day-to-day life.

#### Course guide

- 'Before you start' questions at the beginning of each chapter challenge students' thinking habits and spark discussion before the unit starts
- 'Explore' activities lead students into the exploration of the TOK core, optional themes and areas of knowledge
- 'Real-life situations' help students see how TOK themes manifest in the world around them
- 'Linking questions' help students make connections across themes and areas of knowledge
- 'Discuss' questions promote debate in the classroom
- 'Reflection' features encourage students to analyse their development as knowers
- A dedicated assessment chapter provides students with a wealth of activities that refine the skills
- Ethics is integrated in the course as a running thread throughout the content
