PEARSON

Collins

Welcome to our 2024 Catalogue!

Keeping up with our tradition this year too, **Publishers Marketing Associates** (PMA) and **Sunrise Publications** launch a number of important new titles. It's a known fact that all our books cover the current and best education practices. Many of the learning resources in this catalogue come from **PMA**'s business of working in collaboration with international publishers who have significant expertise and proficiencies in developing learning materials and resources for the Asian and UK school markets over a long period of time.

Some of the new titles featured in this catalogue are the new English language and literature titles: New Cambridge Lower Secondary English for the secondary level and Cambridge Primary World English for the primary level. We are also launching Computers Today series based on the latest computer programmes. Computers Today, 1-8, introduce Windows 10 and MS Word 19.

Moreover, there is a complete pre-primary and junior level maths programme from Marshall Cavendish: Cambridge Primary Maths and New Cambridge Lower Secondary Maths. Highly engaging, attention sustaining, latest Science title is New Cambridge Lower Secondary Science. Development of intelligence is as essential today as it was in the bygone days. Relatable, easy vocabulary, worksheets for the early learners titled World Around Us are bound together attractively by **Sunrise Publications** and placed on top of the list of brand new books. Collins Foundation and Foundation Plus set is another refreshing addition to the repertoire of the pre-primary section.

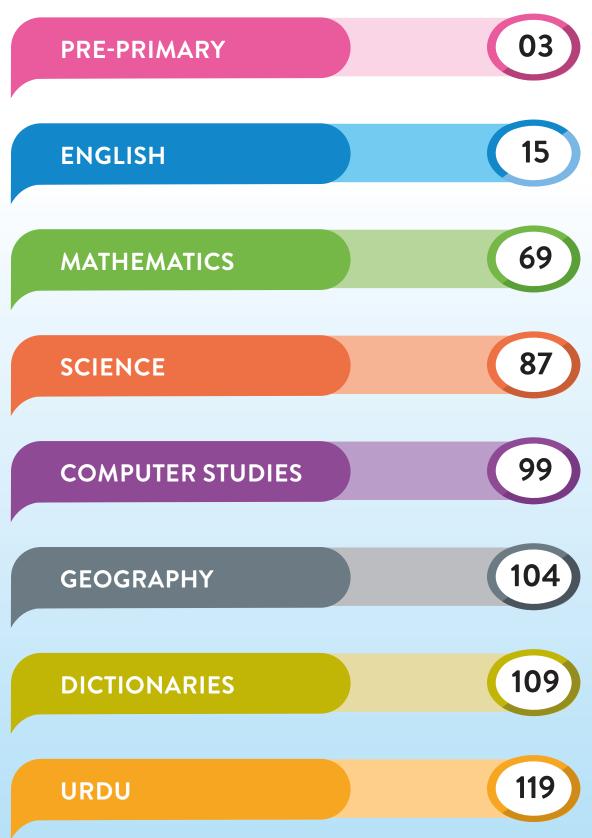

Sunrise Publications has very ambitiously developed a course of Social Studies, Global Learning Books 1 to 5, aiming to keep the students knowledgable about their own country along with other important countries of the world.

Stay up-to-date with our published and forthcoming titles by regularly checking our website: www.pma.com.pk.

Happy browsing!

WORLD AROUND US

Grade Pre Primary 1-3 Activity Worksheets are designed around themes that provide young students an opportunity to relate to their everyday observations. The aim of the worksheets is facilitating students in learning about nature and environment, developing critical thinking and evaluating their own learning. The carefully chosen themes and topics create interest and engage children in meaningful activities. Each theme is further divided into different topics; each topic in turn provides knowledge, concepts, observations and important skills.

COLLINS INTERNATIONAL FOUNDATION & FOUNDATION PLUS

Provide inspirational, fun and age-appropriate learning for children in Early Years and Kindergarten classes!

Collins International Foundation and Foundation Plus is an early-years programme for English, Maths and Science that is designed to be used across two years leading up to the first year of full primary education.

The course introduces young children to English, Maths and Science concepts in an age-appropriate way providing plenty of learning opportunities through games, active play and hands-on exploration.

Each level comprises Activity Books A, B and C - one per term supported by a carefully selected collection of colourful stimulus materials in the Reading Anthology and Teacher's Guide. The materials in Foundation Plus build on what is covered in Foundation to ensure that all learners are fully prepared for the learning ahead, no matter which curriculum their school is following.

The underlying themes - common across English, Maths and Science - allow the courses to be used together so that children build on their knowledge, skills and vocabulary holistically. The course can also be used alongside other courses to provide a comprehensive early-years programme.

FOUNDATION MATHS, ENGLISH AND SCIENCE **ACTIVITY BOOKS**

The brightly illustrated Activity Books provide age-appropriate practice of the core skills in English, Maths and Science.

Each page has simple teaching instructions and a place to track progress, including an assessment record sheet at the back of each book.

ENGLISH / ACTIVITY

PRE-PRIMARY

iPRIMARY EARLY YEARS

Resources specifically designed to work alongside the iPrimary Reception/Early Years requirement for **English** and **The World Around Us**.

- Write-in activity books fully match what children are learning in class week-by-week.
- Each lesson has a dedicated page in the Activity Book where children can reinforce and practice the skills they have learnt through a variety of engaging activities.
- Offers a flexible approach to learning can be used in class, alongside teaching and for additional practice at home.
- Written by experienced teachers, all activities have been designed to be accessible to international students and can be used with or without teacher support as needed.

COMPONENTS

- English: 6x Write-in Activity Books.
- World Around Us: 6x Write-in Activity Books.

SUNRISE EARLY LEARNERS

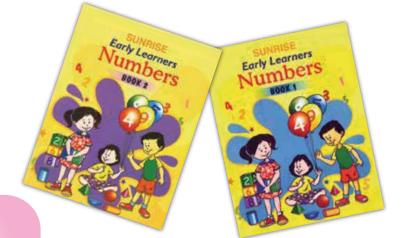

Sunrise Early Learners is a set of five books for pre-primary classes. The set includes:

English: Capital Letters; English: Small Letters; English: Phonics; Numbers: Books 1 and 2.

The books are activity-based and teach various skills and concepts in a graded and thematic manner. Each book has a number of activities and practice tasks to develop age-appropriate skills.

CAPITAL LETTERS PAGE 4-5

Key Features:

•

- age-appropriate
- variety of mathematical concepts
- vocabulary building
 - bright and colourful illustrations
 - easy-to-follow instructions
 - activities to build concentration

RHYMES FOR YOUNG CHILDREN

This set of six rhyming books is written to encourage grandparents, parents and young adults to read aloud to young children for their enjoyment and pleasure. There are two packs with three rhyming books each.

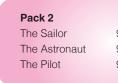

Pack 1 covers the themes that introduce children to the people who help them in their daily lives. *The Gardener, The Cleaning Lady* and *The Chef* all tell about the activities in and around the home, in other words, a child's environment.

Pack 1	
The Cleaning Lady	978 969 505 536 6
The Chef	978 969 505 538 0
The Gardener	978 969 505 539 7

RHYMES FOR YOUNG CHILDREN

Pack 2 covers the themes that introduce children to the distant environment and global travel, namely, in space, in air and on the ocean. *The Astronaut, The Pilot* and *The Sailor* all navigate their way in their own domains.

These rhyming books additionally encourage children to develop vocabulary and learn new words when repeated in the rhymes.

JOLLY PHONICS

Jolly Phonics is a comprehensive programme, based on the proven, fun and multi-sensory synthetic phonics method that gets children reading and writing from an early age. The three main learning divisions–phonics, reading and grammar, span over a period of three academic years of school. Music forms the fourth part, thus completing the skill requirement of children of this age.

Jolly Phonics also teaches children the five key skills of reading and writing: knowledge of letter sounds, learning letter formation, blending letters, identifying the sounds in words and tricky words.

Jolly Phonics Starter Kit Extended contains a basic selection of resources for teachers to get started with teaching Jolly Phonics. All items are contained in a bright carrying case.

- Jolly Phonics Games CD: Inky Mouse and her friends help with learning to read and write through fun activities and provide practice of all the five skills.
- Jolly Stories: This fully illustrated board book has seven stories and covers all the 42 letter sounds. A large letter is embossed on each spread, so that formation can be felt by little fingers. There are additional resources i.e.
 Workbooks, Read and See and Joll Readers, Phonics Pupil Book, The Phonic Handbook and the Music Handbook.
- Jolly Phonics Whiteboard is a software that contains everything required to teach Jolly Phonics effectively. Whiteboard provides daily flipcharts, each teaching a lettersound; handy step-by-step teacher's notes for every session; interactive lessons; audio options and lots of printable worksheets, templates and games.

For further information, please ask for Jolly Phonics Catalogue 2022

PRE-PRIMARY

TALES with MORALS and VALUES

Well-known tales are written and brightly illustrated for young children to learn morals and values of life through the characters of the stories.

CLASSIC FAIRY TALES

The **Classic Fairy Tales** immerse the reader in a world of fantasy. The colourful illustrations invite even the reluctant readers to enjoy the visualised characters.

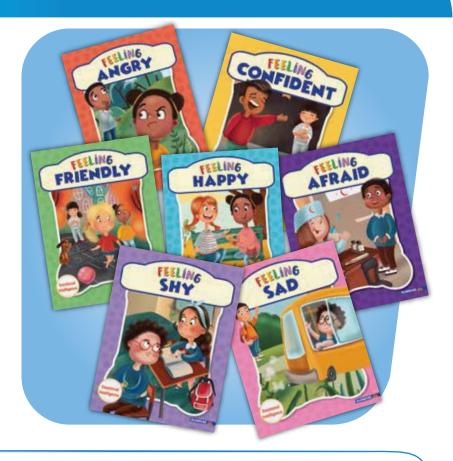

PRE-PRIMARY

FEELING

This series on **Feelings** aims to help the young children identify their natural behaviour in varied real life situations that lead to diverse moods, for undoubtedly emotional intelligence helps in developing a balanced and successful life.

JEALOU

BEING POLITE

Reading these books, on **Polite** reaction to children, will help them learn polite words and their usage in appropriate and familiar situations. Politeness brings out the best response from the others too, which is a source of delight for everyone.

PRIMARY

SUNRISE READING

Sunrise Reading is a set of five readers for the primary classes. These are anthologies of treasured readings and introduce children to the pleasure of reading well-known literary texts at school.

Each book offers rich and varied stories of different genres, selected from famous and popular authors' works. Classic and contemporary book extracts adorn these five anthologies, along with some new, originally created stories. Each level has text-supporting exercises which are interesting and relevant.

The exercises are designed to help students understand and appreciate what they read and then write about.

The authors and poets include:

- H G Wells
- Elizabeth Nesbit
- Walter De La Mare
- Eleanor Farjeon
- Longfellow
- Christina Rossetti
- Rudyard Kipling
- Thomas Hughes
- Robert Frost
- Dalai Lama
- Charles Kingsley

PRIMARY / SECONDARY

READ NOW

Read Now graded story books are designed to improve reading difficulties in comprehension and the unfamiliar syntax of the comprehension and language skills. The stories have been adapted from the internationally popular First Aid in English readers, a much favoured set of readers.

The text in Read Now has been selected to satisfy the reading interests of children. This interest helps them overcome their English language shortcomings.

The selection includes:

- fables
- folk tales
- extracts from classics
- poems

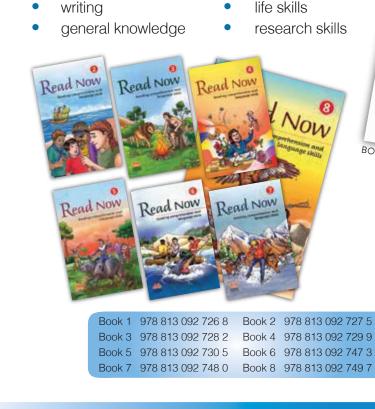

The areas covered are:

- reading comprehension
- vocabulary
- writing

- legends
- short stories

CLASSIC READERS

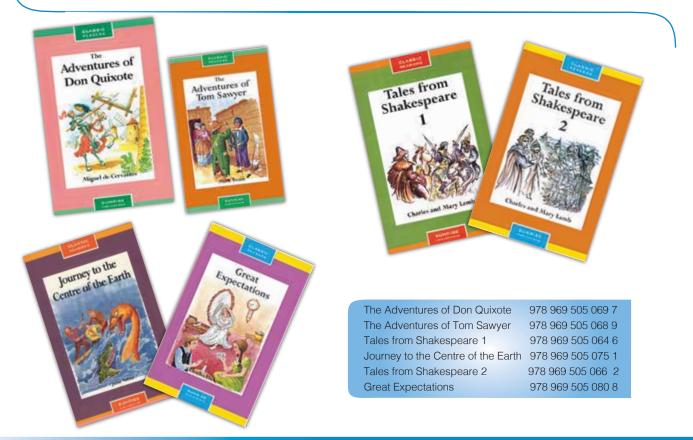

Classic Readers is a series of retold works of some of the greatest writers of English literature: William Shakespeare, Mark Twain, Jules Verne, Miguel de Cervantes and Charles Dickens.

The true spirit of the plays and novels has been faithfully captured in the retold publications.

The three reading levels are based on carefully controlled progression of vocabulary. Meticulously planned activities have been included to provide less intimidating approaches to reinforcement of text.

Cambridge Reading Adventures is a unique Primary reading scheme. It supports children in becoming confident and independent readers of English, regardless of their language background. There are ten colour-coded reading levels.

USBORNE ENGLISH READERS

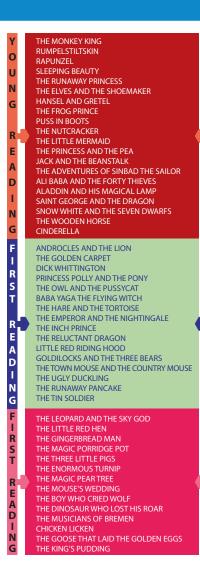

Usborne English Readers are a new range of graded readers in simplified English for younger learners.

- There are 26 titles at three levels in this series.
- These Readers are high-quality books, with compelling storytelling and world-class illustrations.
- They include activities and glossaries.
- Each reader provides: a mix of popular traditional tales and adapted classics; controlled vocabulary and grammar determined by Cambridge ESOL exams.

LITERATURE

ENGLISH LITERATURE

The Wonderful Wizard of Oz & Glinda of Oz

L. Frank Baum

In The Wonderful Wizard of Oz, a huge tornado transports the orphan Dorothy and her little dog Toto from Kansas to the Land of Oz, and she fears that she will never see Aunt Em and Uncle Henry ever again. But she meets the Munchkins, and they tell her to follow the Yellow Brick Road to the Emerald City where the Wonderful Wizard of Oz will grant any wish.

In Glinda of Oz, the last of the original 'Oz ' books, Dorothy and Princess Ozma seek the help of Glinda, the Good Witch of the South, when they find themselves in peril on the Magic Isle of the Skeezers.

ISBN: 978 1 84022 694 2

Five Children and It

E. Nesbit

The grumpy sand-fairy that could, if in the mood, grant a wish a day. When the five children befriend him they find that each granted wish often has a sting in its tail.

ISBN: 978 1 85326 104 6

The Secret Garden

Frances Hodgson Burnett

The three children work astonishing magic in themselves and those around them. The Secret Garden is one of the best-loved stories of all time.

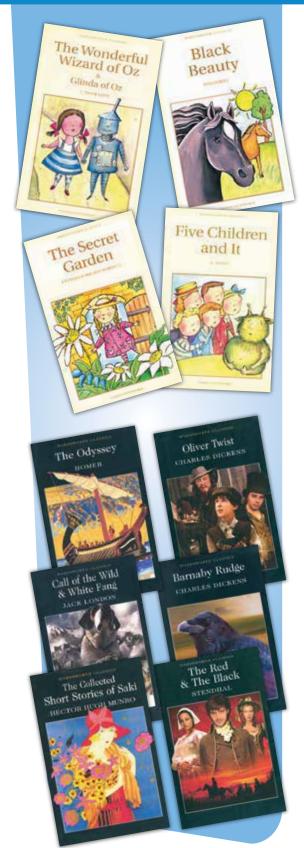

ISBN: 978 1 85326 124 4

Call of the Wild & White Fang

Jack London
 With an Introduction and notes by Lionel Kelly

The Call of the Wild (1903) and **White Fang** (1906) are world famous animal stories. Set in Alaska during the Klondike Gold Rush of the late 1890s.

ISBN: 978 1 85326 026 1

ENGLISH GRAMMAR

READING COMPREHENSION and CREATIVE WRITING

While many students might be able to decode complex texts, it is vital that they also understand and enjoy what they read in order to become lifelong readers.

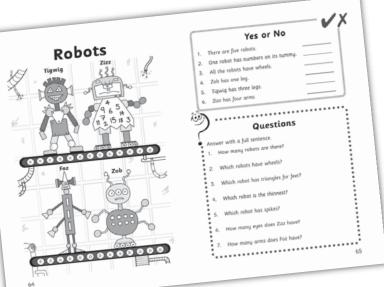

Reading Comprehension and Creative Writing Books 1 to 5 help students to master skills of different genres, from narrative and poetry to recounts and persuasive writing.

Section I: Reading Comprehension

- emphasizes the importance of reading for meaning
- the passages provide a variety of challenging texts
- the topics range from newspaper articles and dialogues to plays, stories and poems
- the level of difficulty in the passages progresses gradually in each book

Section II: Creative Writing

- provides a flexible but structured resource for developing essential writing skills
- the activities help master skills of different genres, from narrative and poetry to recounts and persuasive writing
- the activities are well-designed

DAILY READING COMPREHENSION

Comprehension is a thinking process that empowers the young readers with the skills to construct and comprehend what they read.

Daily Reading Comprehension books 1 to 5 help students become more confident readers by combining comprehension instruction and practice with language development.

Key Features:

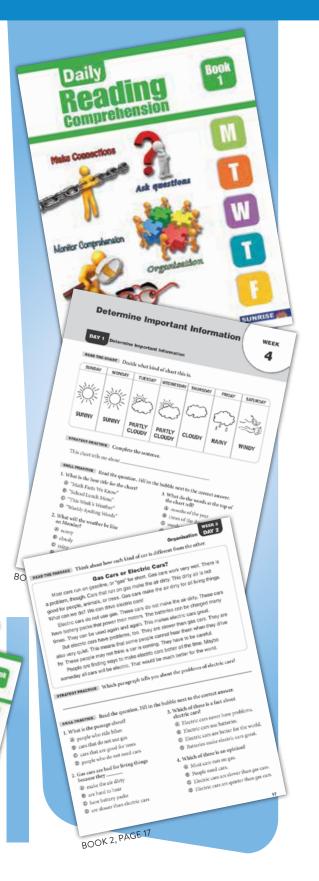

- each book is divided into 30 weeks with a 5 day format
- 150 fiction and non-fiction passages serve as a key source for classroom discussions
- grade appropriate text and illustrations support comprehension passages
- each passage has planned activities
- How to be a Good Reader lists the objectives of reading

STEP BY STEP GRAMMAR and PUNCTUATION

Louis Fidge

Written by the leading author Louis Fidge, this series covers Levels 1 to 5 and supports the teaching of Essential Sentence Level work by providing a systematic, structured and a graded approach to the teaching of grammar and punctuation.

Grammar involves a consideration of how words work together and the underlying rules of the English language. Punctuation is inextricably linked with grammar and helps the students to make sense of what they are reading.

Highlights

- Helps students develop the ability to **use language** clearly, concisely and effectively.
- Teaches grammar and punctuation in a developmental way, ensuring introduction, consolidation and extension of key skills through additional **reinforcement work**.
- Contains clear instructional language and differentiated activities.
- Provides students with the vocabulary they need to discuss, reflect on and understand grammar and punctuation.
- Has **glossary** of grammar and punctuation terms

Teacher's Guide and **Answer CD** contain the scope and sequence of the work of each level and of the whole series; teacher's notes and answers of each step; glossary of grammar and punctuation terms.

JOLLY GRAMMAR

A systematic and progressive approach that enables you to teach grammar, spelling and punctuation plus vocabulary development with purpose and power to your class. It teaches new spelling patterns, supports a greater understanding of sentence structure, expands vocabulary and comprehension, and cultivates dictionary and thesaurus skills.

The teaching is multi-sensory and active with fun actions, songs and games that enable children to spell better, punctuate with more precision, employ a broader vocabulary and gain a greater insight into how sentences work.

Pupil Book A

SUNRISE HANDWRITING

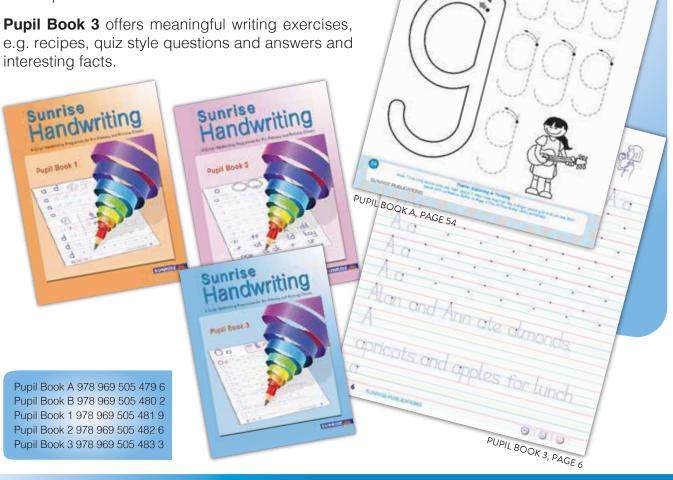

Handwriting forms an important part of communication in daily life and one on which we are often judged.

Sunrise Handwriting is a script handwriting programme that focuses on writing fluently, comfortably and legibly. This programme gives a greater emphasis to the four Ps: Preparation, Pencil Grip, Posture and Practice.

Pupil Book A focuses on developing Fine Motor Skills such as: cutting, sticking, folding, pinching and picking.

Pupil Book B focuses on the correct formation of all lower case letters. The letters are script (with 'no tails').

Pupil Book 1 and Pupil Book 2 focus on the correct formation of all upper case letters and give further practice in lower case letter formation.

PRE-PRIMARY / PRIMARY

HANDWRITING

WRITE it WELL

This is a new, systematic programme that provides a complete handwriting course for primary school children.

From the eye-hand coordination practice through control of eye movement with hand movement, the series progresses to teaching letter formation, then letter joins, promoting a clear, fluent and legible style of handwriting.

The Write it Well series is very clearly structured, ensuring ease of use for both teachers and pupils.

It features self-assessment and teacher checklist assessment, а for posture corrections, starting point guide, size of the letter guide, real writing opportunities as well as many types of fun exercises and humorous illustrations.

Write it Well books cover both the strands of handwriting, script and cursive.

JOLLY ENGLISH

Jolly English is an English language course that has been carefully developed and sequenced for pre-school children who have little or no knowledge of English language.

Join Inky Mouse and her friends, Snake and Bee, as they discover new words and phrases using songs, games, chants and stories that bring the course to life and develop children's English Language.

The Course comes in two levels, with each level providing 44 lessons that take 40-45 minutes to complete. Each level comprises of the following components:

- A Teacher's book with step-by-step lesson plans and guidance for every topic, plus all the audio material required.
- A colour Pupil book with stickers, for children to work through in the classroom to reinforce the lesson.
- A black and white Practice book, which provides children with further opportunities to revise and consolidate the teaching. These can be used in class or at home.
- Flashcards, beanbags and puppets can also be used to help present and practice new language (available in the Jolly English Teacher's kit only).

PRE-PRIMARY / PRIMARY

ENGLISH TODAY

This is a fantastic new activity-based programme spanning the pre-primary levels through to all the primary levels.

The **English Today** Pre-Primary Book A has as its main feature the introduction and consolidation of all the 26 letters of the alphabets in one book, rather than having them spread out over two years.

The Pre-Primary Book B reinforces the teaching of phonics and progresses to the basics of reading, comprehension, writing and grammar. Children's favourite stories have been given along with interesting related work.

NETWORKS: A COMPLETE COURSE IN ENGLISH

Networks: A Complete Course in English is a set of eight textbooks and eight workbooks that are based on the premise that learning English skills is an important life skill. Since English is the medium for learning other subjects, students need to acquire English skills, structures and the vocabulary that is essential for understanding other subjects. This series focuses on achieving this objective, in keeping with its holistic view of the curriculum.

Each Course book Unit has the following exercises:

- Read and Answer
- Work with Words
- Practice Grammar
- Write Well
- Listen and Speak
 Netwise
- Language Skills across the Curriculum
- Subject Links to the Curriculum

The Workbooks complement the coursebooks and give:

- additional lesson-based comprehension exercises
- extensive grammar and vocabulary practice
- listen and speak sections to sharpen the language productive skills of learners
- unseen comprehension passages

PRIMARY / SECONDARY

REAL ENGLISH

Real English is a multi-skill language course written **for primary and secondary classes 1 to 8.** The series draws the student's interest through themes and ideas taken from the surrounding environment.

The lessons include stories, anecdotes, biographies, episodes of history, classic stories, plays, poems and rhymes.

The primary level components include the Coursebook with a Supplementary Reader–a Workbook and a Teacher's Guide with Answer Key for both Coursebook and Workbook exercises.

The secondary level **Coursebooks** have graded exercises on comprehension, vocabulary, grammar, listening and speaking, sounds and pronunciation and creative writing.

The **Workbook** reinforces the concepts introduced in the Coursebook.

The **Supplementary Reader** guides the learners through exposure to various genres of writing. The **Teacher's Resource** has a CD Answer Key for both Coursebook and Workbook.

MY PALS ARE HERE! ENGLISH

MY PALS ARE HERE! ENGLISH is specially developed to make the learning of English a fun and rewarding experience. This series emphasizes the teaching and learning in the context of use of the language, thus ample variety of text types are introduced with a focus on context, culture, purpose and audience. There are **two Textbooks** and **Workbooks for each Class**. Both books are thematically linked for in-depth and meaningful learning. The Textbooks cover reading, grammar, vocabulary, writing and phonemic awareness. Each unit is organized by themes which pupils can easily relate to. Language skills that are taught in the textbooks are effectively reinforced in the Workbooks through a variety of stimulating exercises.

The **Teacher's Resource pack** has supplementary and reference material to support, extend and enrich the teaching and learning of English.Teacher's Resource material available on request.

COLLINS EXPLORE ENGLISH

Authors: Sandy Gibbs, Robert Kellas Karen Morrison, Daphne Paizee

Explore English has been written with a range of international contexts in mind and offers progression within and across levels. The course offers full coverage of the new Cambridge Primary English as a Second Language curriculum framework.

Student's Resource Books:

- Provide excitement and enjoyment with a visually appealing magazine-style book
- Showcase and discuss a range of carefully selected fiction and non-fiction reading texts on a variety of age-appropriate topics.
- Activate imaginations and help create an inclusive learning environment.
- Challenge learners to think deeply and communicate their ideas and opinions.
- Extend learning with audio files available as a free download.

Student's Coursebooks:

- Develop and consolidate learning with write-in coursebooks containing varied activities and exercises.
- Use in conjunction with the Student's Resource Book.
- Develop language skills with an emphasis on practical communication.

Teacher's Guides:

- Provide carefully designed scheme of work, with clear mapping to the new curriculum framework.
- Deliver tailored lessons with comprehensive lesson plans and concise learning outcomes that give step-by-step guidance.
- Support and extend student's learning with photocopiable worksheets
- Answer keys for Coursebook exercises included in each unit.

COLLINS INTERNATIONAL PRIMARY & SECONDARY GLOBAL PERSPECTIVES

- Rebecca Adlard
- Fiona MacGregor
- Sula Delafuente
- Daphne Paizee
- Katharine Meunier

A six-level course that builds students' Global Perspectives skills through practical exploration and investigates issues relating to the topics within their school, family, surroundings and culture.

Student's Books

- Develop the six Global Perspectives skill strands through a wide range of topics using a personal, local and global perspective
- Provide students with a variety of sources, with an international focus, to support their learning
- Draw learning together in a final task withi each unit and allow students to undertake a piece of research, analysis or an action in their school or learning community
- Provide regular opportunities for reflection and self-assessment

Teacher's Guides

- Downloadable and editable lesson plans and worksheets can be adapted to suit classroom needs
- Curriculum framework mapping tables and unit overviews support effective planning
- Prepare learners for a seamless transition to study Global Perspectives at Cambridge Lower Secondary and beyond

SECONDARY

ENGLISH AHEAD

English Ahead, Lower Secondary 1 to 3, has been carefully crafted to challenge second language English learners.

With integrated video, audio and authentic texts, the series exposes students to a range of

communication techniques and encourages them to reason and think critically.

With structured guidance in reading, listening, speaking and writing, the series builds language skills in a measured, holistic way and encourages students to read and write with purpose. The student-centred activities encourage collaboration as well as build students' knowledge of the world around them.

Taking the learning outcomes from the Cambridge Assessment International Education (CAIE) syllabus, the series prepares students for both national and international examinations.

JUST MATHS

A COMPLETE PRIMARY MATHS PROGRAMME

Just Maths is a new, exciting and original primary maths programme. A ground breaking programme, it has been developed specifically to meet the needs of the pupils. This new programme places understanding, problem-solving and active learning at its core, introducing a range of suitable strategies, approaches and tools to encourage engagement. Just Maths focuses on the acquisition and development of mathematical skills and helps children discover the joy and fun in mathematical thinking, open-ended questioning, estimating, problem-solving, rationalising, collaborating and ultimately, understanding.

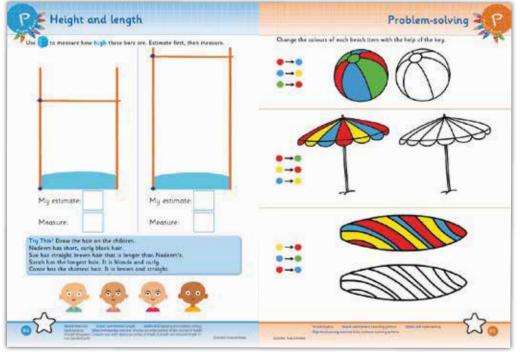

Another key element in Just Maths is the focus on mathematical language. It provides student with the necessary terminology to express and communicate their thinking and understanding.

Key features of Just Maths programme:

- **Problem-solving** is at the core providing special pages to inculcate flexibility in learning.
- The **use of frames** at various levels help students work with a visual image of the compositions of numbers.
- Mini whiteboards provide active involvement and are an asset in getting instant feedback.
- The components include a **Workbook** at each level to consolidate the concepts and skills.
- A very comprehensive Teacher's Resources Book accompanies the sets at each level, composed of Lesson Plans, Objectives, Assessments and Answers of the work.
- Photocopiables master has been meticulously developed for the teachers.

INSPIRE

INSPIRE MATHS

Inspire Maths is a high-quality primary maths programme for Classes 1 to 5. It is recognized globally as one of the most impactful ways to teach and learn maths.

Pupil Text Book

The Pupil Textbooks introduce concepts in a highly scaffolded way, helping children to make meaningful connections between mathematical ideas and promotes discussion and exploration in pairs or small groups.

Practice Book

The Practice Books reinforce the concepts that have been introduced and provide a wealth of questions and activities for pupils to develop fluency, and build mathematical confidence leading to mastery.

Teacher's Guide

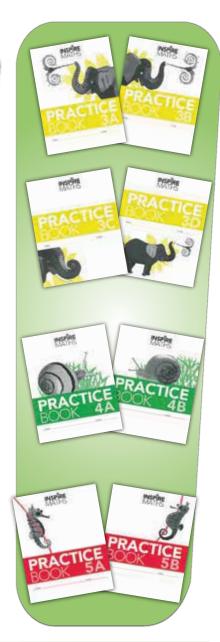

The Teacher's Guides provide a clear pathway to quickly identify gaps for immediate intervention and opportunities for further practice or enrichment. There is a step-by-step teaching sequence for each Pupil textbook page.

WORK IT OUT MENTAL MATHS ACTIVITIES

This set of mental maths books consolidates

- Tables
- Friday Tests
- Self-Assessment •

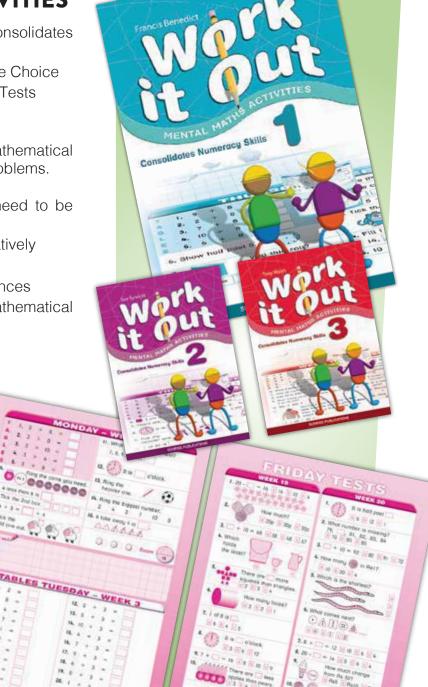

Numeracy is the ability to use mathematical skills and understanding to solve problems.

For acquiring this ability children need to be able to:

- communicate and think quantitatively
- interpret data
- understand patterns and sequences •
- identify situations where mathematical reasoning can be used
- solve problems

the numeracy skills of children Computation

MATHS

SUNRISE MATHEMATICS

Sunrise Mathematics books 1 to 5, is student-friendly, as well as a teacher-friendly course for primary classes. It provides the students with lots of enforcement work and teachers with time-saving and in-depth planned exercises.

Key features:

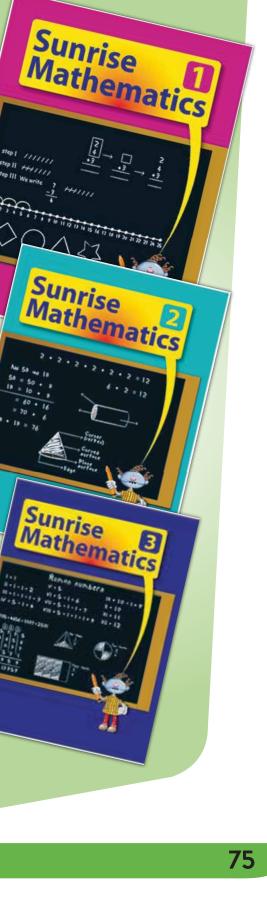

- Fundamentals of the concepts and subject matter are highlighted and explained through simple logic of addition, subtraction, multiplication and division.
- Learning is initiated through interesting patterns and relationships that awaken and stimulate the urge to seek and discover ideas of mathematics as a way of life.
- The contents facilitate mastery of the concepts and hypotheses through motivating methods.
- Each topic has been introduced in a logical sequence, concepts built with concrete objects; large number of exercise gradually increasing difficulty levels.

unrise Mathematic

• Answer Keys for books 3 to 5.

MY PALS ARE HERE! MATHS

Drawing from extensive research and feedback, this world-class programme is widely adopted and highly popular amongst teachers and pupils.

To hone pupils' problem-solving and critical-thinking skills, concepts are arranged and unfolded systematically using a structured approach that progresses with pupils' cognitive levels. Abundant resources are provided to support the differentiated pathways and facilitate effective assessments.

COLLINS INTERNATIONAL PRIMARY MATHS

Collins Cambridge International Primary Maths offer full coverage of the new Cambridge Primary Mathematics curriculum framework and support best practice in primary maths teaching with **Collins International Primary Maths.**

Student's Books:

- Provide an exciting theme with lessons based on a 'big idea' which is anchored in a real-life international context
- Help students to develop their 'Thinking and Working Mathematically' skills
- Offer opportunities for group and individual learning

Workbooks:

- Challenge students with three levels of practice and knowledge consolidation
- Develop sense of self-study and discipline
- Offer an oppurtunity for personal reflection on progress

Progress Books:

 Allow learners to apply what they have learnt and demonstrate mastery and understanding of mathematical concepts

Teacher's Resource Plus:

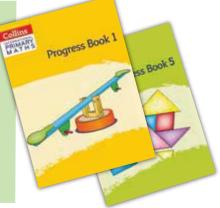

• Supplement your lessons with a wealth of digital assets including tools and games to make maths lively and engaging

MATHS

Cambridge Primary Mathematics

Learner's Books

Master the essential mathematical concepts of each unit, with specifically signposted tasks and activities rooted in the mastery approach.

- Get learners thinking mathematically: Engaging activities are designed to focus on key skills and principles.
- Embed knowledge: Enable students to make connections between different areas of mathematics across all areas of learning.
- Develop vocabulary: Probing questions throughout are designed to encourage vlearners to use accurate language to describe how they solve particular problems.

Workbooks

Save time planning: Ready-made homework and extension activities.

NEW CAMBRIDGE PRIMARY MATHEMATICS

- Cherri Moseley
- Emma Low
 - Greg Byrd
- Janet Rees
- Mary Wood
 - Lynn Byrd

Whether they are creating a house with 3D shapes or using recipes to understand fractions, this series focuses on getting your learners to think mathematically.

Learner's Books

Learners will be fully supported with worked examples and plenty of practice exercises to help them build their confidence with a range of maths concepts including handling data, algebra and probability. We've also included projects that provide oppurtunities for deeper investigation of mathematical ideas and concepts, such as exploring negative numbers through water levels. With key word boxes, clear diagrams and supporting illustrations, the resources are accessible for all learners.

Workbooks

Providing practice and consolidation, the workbooks are packed with activities, including puzzles, ordering and matching. Specific questions focus on developing learners' skills for Thinking and Working Mathematically, while three-tiered Focus, Practice and challenge exercises provide clear progression through each topic. The workbooks are ideal for use in the classroom or for home learning.

COLLINS CAMBRIDGE LOWER SECONDARY MATHS (2nd Edition)

- Alastair Duncombe
 - Belle Cottingham •
 - **Claire Powis**

Rob Ellis

- Amanda George
- **Brian Speed**
- Develops students' maths mastery and confidence with this fully updated Lower Secondary Maths course offering comprehensive coverage of the curriculum framework (0862). A strong emphasis on Thinking and Working Mathematically is integrated throughout.

Student's Book:

- Offer worked examples with clear and detailed explanations to build learner independence
- Provide students opportunities to review and consolidate learning and reflect on their progress
- Develop Thinking and Working Mathematically skills, enabling learners to gain competence and confidence in maths

Workbook:

- Enable learners to fully master a topic before moving on with a variety of questions
- Support students with pointers and pictorial representations included in the Workbook
- Can be used in class or as homework to support secure learning

Teacher's Guide:

- Plan teaching effectively with clear learning objectives throughout the course with guidance provided
- Promote and assess the Cambridge Thinking and Working Mathematically characteristics through the course
- Ideas for starter activities and discussions. notes on common errors, support and extension ideas and end-of-chapter topic reviews included

SECONDARY

NEW MATHEMATICS COUNTS Second Edition

Tay Choon

Martin Grier

Mark Riddington

New Mathematics Counts is a set of five textbooks which prepares students for success in O level examinations. The Concrete– Pictorial– Abstract approach is used and care is given to introduce one concept at a time to allow students to grasp each concept with ease, and work through graded exercises as they develop, and consolidate their learning.

- Engaging Openings attract attention Each chapter starts with an opening related to the topic that holds the students attention.
- Discover! The key learning outcomes are outlined at the beginning of each chapter.
- Diagrams aid visualization Diagrams help students visualize mathematical concept and ideas more clearly.
- Key ideas Definitions and mathematical formulas bring focus the key concepts covered in the chapter.
- Worked examples These examples serve to bring students step-by-step through the process to solving the problem.
- Margin texts These aids pop-up as needed to guide students through difficult concepts and workings.

SUNRISE PUBLICATIONS

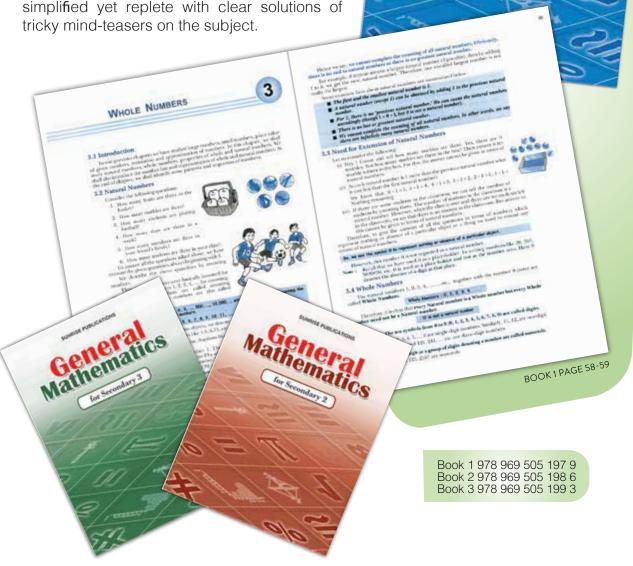

for Secondary 1

GENERAL MATHEMATICS

General Mathematics is a course for secondary classes VI to VIII. A new approach to learning Mathematics is presented in this set.

Highlights

- Designed to motivate and help students through their difficulty levels.
- 'Learning by Doing' is the essence of the text: • Learning through clarity of concepts and Doing through exercises related to illustrations.
- The text builds comprehension and minimizes total dependence on the tutor.
- General Mathematics is a set of books simplified yet replete with clear solutions of tricky mind-teasers on the subject.

Pre-Primary / Primary / Secondary SCIENCE

SCIENCE

PRE-PRIMARY / PRIMARY / SECONDARY

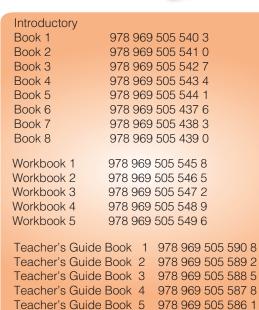

CREATIN

CREATIVE SCIENCE (REVISED EDITION)

The popular series, **Creative Science**, **Introductory Book through to Book 1-8**, has been revised and updated to bring it at par with the requirements of the schools.

This edition is accompanied by well developed Workbooks that supplement and complement the concepts covered in the coursebooks.

- The books have been divided into thematic units.
- Relevant topics explain nature and cover different realms alongside.
- Colourful illustrations stimulate children's interest and curiosity.
- The Exercises, Project Work and Fun Time Work are all activity-based and sustain the motivation level.

PRIMARY / SECONDARY

SCIENCE

ESSENTIAL SCIENCE

Essential Science books cover levels 1-8. They present important scientific concepts and how they relate to all aspects of our lives. Essential Science presents a new scientific approach to learning through brainstorming the existing knowledge on the topic and then enriching it by making students observe, analyze, classify, organize, solve and hypothesize.

At the secondary level, additional research tasks and stimulating activities consolidate the learning by developing valuable skills.

Some salient features are:

- Objectives
- Hands-on
- Look and explain
- What should you know?
- Think and complete
- Activities
- Look
- Vocabulary terms
- Explore
- Key language
- Investigate
- Discover
- Index
 - Learning to learn: practical work

SCIENCE

PRIMARY

NEW CAMBRIDGE **PRIMARY SCIENCE**

- Jon Board
- Alan Cross
- Fiona Baxter
- Liz Dillev

From finding out if water conducts electricity, to discovering how energy is transferred, Cambridge Primary Science gets the learners thinking like scientists!

The resources include digital access as standard.

Packed with opportunities to plan experiments, make predictions and gather results, this edition supports the new Cambridge

Learner's Books:

The learner's books include practical activities to develop learners' thinking and working scientifically skills. They'll find out how our muscles work, discover the difference between liquids and solids, and what causes volcanos.

Workbooks:

Encourage learners to think and work scientifically and provide opportunities to consolidate their learning. The workbooks include Focus, Practice and Challenge exercises to provide clear progression through each topic, helping learners see what they've acheived. The drawing and writing activities give learners more experience with scientific vocabulary, which helps develop their language skills.

This six-level course sparks scientific curiosity from a young age through an enquiry-based approach and active learning.

The series is organised into four main strands: Biology, Chemistry, Physics and Earth and Space.

Student's Books:

- Offer differentiated activities and continous assessment throughout
- Help pupils to actively learn through practical activities that don't require specialist equipment or labs
- Fully cover the new curriculum framework with Earth and Space context
- Enhance the delivery of scientific skills with Thinking and Working Scientifically section.

Workbooks:

- Clear navigation to the corresponding Student's Book page labelled in the Workbook.
- Provide opportunities to deepen understanding and build on prior knowledge
- Include language development activities to help build scientific vocabulary

MY PALS ARE HERE! SCIENCE INTERNATIONAL 2nd Edition

This updated new edition of the **My Pals are Here! Science International** series helps pupils to aquire a deep understanding of scientific concepts by being active in the learning process. The series encourages pupils to experience and explore scientific concepts, while drawing on prior knowledge and reflecting on their learning. In addition, pupils can develop essential process and inquiry skills which enable them to thrive in both science and cross-disciplinary subjects. With the addition of new features, the 2nd edition continues to cater to pupils with various learning styles through a range of intresting activities.

My Pals are Here! Science International is adapted from the highly effective MPAH! Science series, which is the most widely-used primary science programme in Singapore schools. Users of this series have been consistently ranked high in TIMSS (Trends in International Mathematics and Science Study) - an international evaluation of mathematics and science performance.

PRE-PRIMARY / PRIMARY

INTERACTIVE SCIENCE

This updated series connects students with the big Ideas of science relating to their lives.

Students master content by reading small chunks of text with numerous interactivities such as, circling, drawing, or writing, requiring students to stop while they read and assess their understanding right there, not just at the end of the lesson or chapter.

- Makes science relevant and fun.
- Teaches literacy through science by integrating reading, writing, and comprehension skills.
- Allows students to write in their books. Includes all content, interactivity and practice in one book.

SCIENCE

MAX SCIENCE

Max Science primary is a highly engaging and effective course based on the most successful teaching methodologies used in world science today.

Over 6 stages (Years 1-6), Max Science primary introduces students to the key concepts and topics of primary Biology, Chemistry and Physics with carefully scaffolded resources that build knowledge and confidence throughout the course. All the content has been written by a highly experienced and knowledgeable author team who share a philosophy of learning grounded in science education research and best practice.

As well as following the most effective approaches for mastering scientific skills, our titles focus on the challenges posed by scientific language and are carefully designed to promote fluency of scientific language and terminology.

Max Science primary - features:

- 100% match to the Cambridge Primary Science Curriculum Framework (stages 1 6).
- Integrates and clearly identifies the skills of scientific enquiry and critical thinking.
- All materials are international in content, flexible and adaptable for all global regions.
- There is English language support across all the resources to support teachers and learners whose first language may not be English.
- As part of the Macmillan Education International Curriculum 'Promise', the course includes continuous assessment, school-home journal, easy to use digital components, differentiation, tools for independent learning and full teacher support including professional developments.

NEW CAMBRIDGE LOWER SECONDARY SCIENCE

- Mary Jones
- Diane Fellows-Freeman
- Michael Symth and Sally Burbeary

This series help students think and work scientifically with opportunities to plan experiments, make predictions and gather results. Each unit ends with a mystery, which help students to better understand topic and how they relate to the real world.

Learner's books

These books make science accessible for learners with English as a second languge with vocabulary boxes, clear diagrams and supporting illustrations. a practical approach to topics allows learners to explore questions and develop a deeper understanding.

Workbooks

These workbooks are full of activities that help students practise what they have learnt, while encouraging them to think and work scientifically.

Focus, Practice and Challenge exercises provide clear progression so that students can see what they have achieved. The workbooks are ideal for use in the classroom or for homework.

INSCIENCE

The INSCIENCE series employs а constructivist-inquiry approach to encourage active learning, self-reflection and metacognition. It brings science to life through case studies, news articles and field trips that relate concepts to everyday life; while features such as science and history/technology give a balanced overview scientific development. Concepts are of introduced in the context of daily life, technology and industry to link learning experiences to everyday life.

Builds knowledge

- Advance graphic organizers link topics in a meaningful way.
- Graphics, concept cartoons and concept maps aid understanding.
- Scaffolding helps the learning of concepts and the acquisition of higher order thinking skills.

Builds exam confidence

Key points and revision exercises are provided.

COMPUTER STUDIES

COMPUTERS TODAY

Computers Today is a series of eight books and conforms to the vision of the curriculum framework. This is an updated course based on Windows 10 and MS Office 2019 introducing students to the latest interface and the associated features.

Key Features

SRM

Word Web explains the difficult words.

You Should Know gives interesting facts about the relevant topic.

Quick Way highlights the important keyboard shortcuts for the menu commands.

Exercise at the end of each chapter reinforces the understanding of the topic.

Research Project integrates Computer Science with other subjects.

IT Personalities contains important information about the famous IT personalities. **Key Terms** and **Tech Terms** enlist the important terms for the students.

Latest IT Trends describes the emerging technological advancements.

The entire package comprises of Coursebooks 1 to 8, and also Teacher's Resource 1 to 8 as support for the teachers.

The series is designed as an interesting and innovative course catering to the user requirements across the board. It is aimed at imparting basic knowledge of Computer Science to students, thereby leading them to gain technical expertise in the latest software applications.

Max Computing

MACMILLAN EDUCATION MAX COMPUTING DIGITAL SKILLS FOR A DIGITAL WORLD

Max Computing is a brand new course for grades 1 to 9 developed by Macmillan in partnership with immersive educators. pioneering and Diaital Schoolhouse. It teaches students digital skills to prepare them for life in the 21st century – building a strong qualifications foundation for formal and future workplaces. It provides write-in workbooks for grades 1 to 3 and student books for grades 4 to 9. Every grade comes with a comprehensive downloadable Teacher's Guide, digital resources and continuing professional development.

Key Features

- Accessible, practical ideas that don't require specialist teachers or expensive hardware and software
- Teaches students to stay safe online, identify reliable information and develop into responsible digital citizens
- Helps students to understand and use technology productively, from the basics to more sophisticated techniques
- Delivers key skills such as working with images, text and data, coding, robotics and programming
- Saves time with ready-to-use downloadable digital resources, an online CPD programme and Teacher's Guides online.

ICT STARTERS

Fourth edition

- Victoria Ellis
- Sarah Lawrey
- Doug Dickinson

Help students learn essential ICT skills, from using Microsoft Office® basics to creating animations and websites. This series brings a fresh approach to ICT for students from 8 to 14 years old, mapped to the Cambridge ICT Starter syllabus.

- Clear learning objectives at the start of every chapter highlight specific syllabus skills and also whether they correspond to a Pass or Merit level.
- A 'Before you start' section links back to pre-requisite knowledge, ensuring students are prepared and ready to start the chapter
- A strong emphasis on e-safety helps students stay safe on the internet
- Fun activities including creating images exploring multimedia and programming provide a steady step-by-step approach
- A practical activity at the end of each chapter provides task-based learning where students can consolidate all of their skills
- Opportunities for reflection allow students to monitor their learning and consider what and how they have learnt

SOCIAL STUDIES

PRIMARY

GLOBAL LEARNING PRIMARY SOCIAL STUDIES

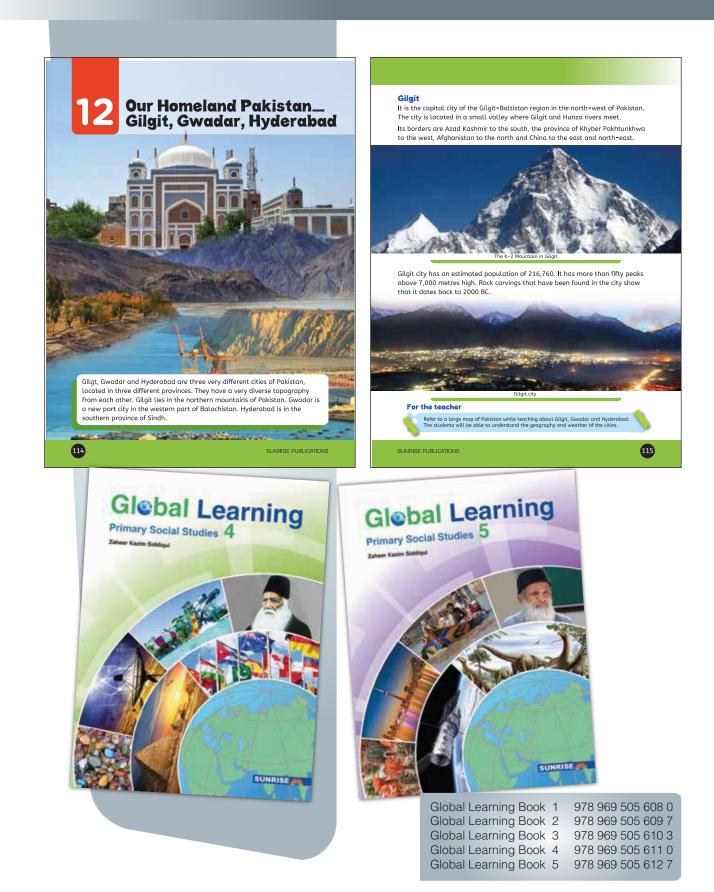

• Zaheer Kazim Siddiqui

This is **a five-book Social Studies** course for the primary level designed with the intent to satisfy the queries of inquisitive minds of the 21st century students. The series focuses on the introduction and consolidation of students' knowledge about their own environment specifically and, of the world beyond their horizons generally, consequently preparing them for the challenges of the higher levels.

The books provide a blend of History, Geography, Civics and Economics with exposure to up-to-date contents and high standard of text language.

- **Illustrations** stimulate thinking and predicting
- **Class activity** makes learning a fun-filled hands-on experience
- **Did you know?** makes students rise up on the ladder of knowledge
- **Test your knowledge** includes questions eliciting lateral, logical and analytical thinking
- **Project work** develops problem-solving, time management and teamwork skills
- For the teacher facilitates teachers in imparting and optimising the delivery of the knowledge provided in the books

DICTIONARY

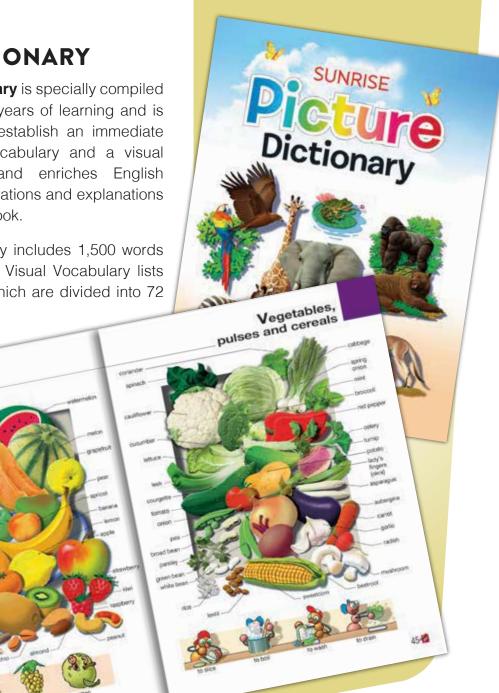

SUNRISE PICTURE DICTIONARY

Sunrise Picture Dictionary is specially compiled for children in their first years of learning and is intended to help them establish an immediate association between vocabulary and a visual image. It increases and enriches English vocabulary through illustrations and explanations given at the end of the book.

Sunrise Picture Dictionary includes 1,500 words that are used daily. The Visual Vocabulary lists words with 17 themes which are divided into 72 sub-categories.

Fruit and nuts

Highlights:

- Three-dimensional computer generated 1,500 pictures
- Words for objects, living things, descriptions actions

Page references are given for all definitions

- 1000 nouns, 250 verbs, 100 adjectives are illustrated separately
- The dictionary section gives explanation of Visual Dictionary words in an alphabetical order

The Sunrise

English-English-

The Sunrise First Dictionary is a bilingual English and Urdu dictionary with over 2,200 headwords, and serves as a treasure trove for young students in extending their vocabulary in both the languages.

The Sunrise First Dictionary:

English-English-Urdu gives words and their usage, forms of the headwords, synonyms of some selected words, opposites of words, some pronunciation guides, pictures of words and internet links of selected words.

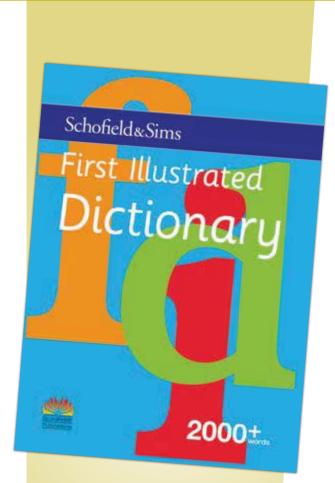

FIRST ILLUSTRATED DICTIONARY

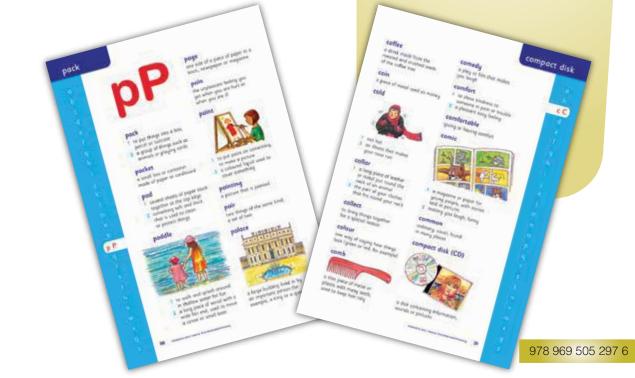

Schofield & Sims dictionaries are excellent sources of reference. They are carefully graded so that each dictionary builds on the earlier one, thus providing a natural progression.

First Illustrated Dictionary:

- includes more than 2,000 headwords and definitions and over 500 colour illustrations
- provides concise instructions on 'How to use this book'
- gives short forms and irregular plurals
- provides help with pronunciation where appropriate
- includes clear guide words indicating the first and last headwords on each spread
- reinforces knowledge of the alphabet by providing an alphabet strip on each page
- includes lists of colours, months of the year, days of the week and numbers.

Compiled to support Key Stage 1, the **First Illustrated Dictionary** may also be used with older children and young people.

PRIMARY

FIRST DICTIONARY First Dictionary:

- includes more than 5,000 headwords–plus short forms, plurals, alternative verb forms, comparatives and superlatives
- gives help with pronunciation where necessary
- features a special introduction for children, 'What is a dictionary?'
- gives concise instructions on 'How to use this book'
- includes clear guide words that indicate the first and last headwords on each spread
- reinforces knowledge of the alphabet by providing an alphabet strip on each page
- features separate lists of high-frequency words (derived from Letters and Sounds), pronouns, opposites, synonyms, time words (including days of the week, months and seasons) and numbers
- provides additional lists of topic words on the themes 'School', 'Places' and 'Travelling'
- ideal for use with First Thesaurus, which gives synonyms for over 2000 of the headwords listed.

Designed for the transition between Key Stages 1 and 2, First Dictionary may also be suitable for older children and young people.

978 969 505 296 9

FIRST THESAURUS

The First Thesaurus

- includes more than 2,000 headwords
- enriches children's language with over 10,000 synonyms
- features a special introduction for children 'What is a thesaurus?'
- gives concise instructions on 'How to use this book'
- includes a list of over 500 antonym pairs
- provides additional lists of topic words on the themes 'All about you', 'Animals', 'Plants', 'Food, Drink and Cooking', 'Your home' and 'Things to wear'
- includes clear guide words indicating the first and last headwords on each spread
- reinforces knowledge of the alphabet by providing an alphabet strip on each page
- ideal for use with First Dictionary, which gives definitions of all the headwords listed.

Supports the transition between Key Stages 1 and 2; First Thesaurus may also be suitable for older children and young people.

ALIF SE URDU

Alif se Urdu is a set of 5 books which has been developed and designed in a new format. The books make the learning of Urdu language enjoyable through its well-designed activities. They include composition and comprehension with grammar, letter, vocabulary, and different styles of creative writing.

Key features:

- lots of creative writing exercises: stories, dialogues, and essay writing
- each lesson has interesting comprehension passages and vocabulary building exercises
- English translations of important topic words given
- colourful illustrations complement the text on all pages.

PRE-PRIMARY / PRIMARY

KAHANI KHAZANA

Kahani Khazana is a series of Urdu readers for primary school children. The readers have been developed to inculcate reading habit in young children and introduce them to the nuances of the Urdu language and its varied genres. There are two books for **Ibtaydaee** (elementary) level.

Ibtaydaee 1: introduces the letters of the Urdu alphabet divided into 6 groups. The letters in the groups have been personified, magically created through meaningful text and colourful illustrations.

Ibtaydaee 2: covers the different aspects of letter-sound relationships of Urdu phonics and Urdu alphabets.

- a wide range of originally written as well as selected stories and poems that nurture moral values
- interesting and fun-filled activities help to develop oral skills
- attractive and colourful illustrations that complement the text
- teaching notes for teacher facilitation.Kahani Khazana, Books 1 to 5 are reader-friendly, easy to use.

WORKSHEETS

PRE-PRIMARY

SUNRISE STARTERS WORKSHEETS IBTAYDAEE URDU 1-3

This set of three **Urdu Elementary Worksheets** has been designed by focusing on the requirements and limitations of the young learners stepping into the school environment.

In **Worksheet 1**, the visual learning is scaffolded by the sensorial learning through the provision of rough, raised shapes of the Urdu alphabets. Learning through the sounds of the letters is introduced in these worksheets.

In **Worksheet 2,** the phonetic approach is consolidated. Furthermore, the different changes in the shapes of the letters when forming words are shown and reinforced through interesting writing activities.

In **Worksheet 3**, Urdu vocabulary is extended by systematically introducing small words in the beginning and gradually progressing towards structured small and age-appropirate sentences.
